Forensic Psychology and Neuropsychology for Criminal and Civil Cases Harold V. Hall, 2007-11-19 Greater Understanding Better Evaluations Today s increasingly sophisticated psychological and neuropsychological assessments allow for greater understanding and evaluations in forensic psychology By integrating discussions of modern psychological and neuropsychological tests with extant civil and criminal cases this book presents a unique resource for insight into the impact of modern behavioral science on the legal system Foundational Criminal and Civil Issues Divided into three parts this timely compilation of articles from national and international experts begins with foundational issues such as the legal ethical and applied aspects of mitigation evaluations It examines violence prediction and risk analysis violence in the family and the detection of malingering and deception in forensic evaluations Part 2 looks at the psychological issues found in criminal forensic evaluation This section discusses assessments of competence to stand trial mitigatory defenses and hostage negotiation as well as the psychological impact of officer involved shootings The final part focuses on neuropsychological evaluation as it is relevant to civil cases including worker s compensation malingered pain and memory deficits and parental assessment in child maltreatment cases Template Case Studies Providing several full case studies in more than a dozen appendices this book addresses both psychological and neuropsychological concepts in the context of the legal system and allows for a practical understanding and application of behavioral legal and ethical issues in civil and criminal cases

Bridging the Gap Between Policy and Science in Assessing the Health Status of Marine Ecosystems, 2nd Edition Angel Borja, Michael Elliott, María C. Uyarra, Jacob Carstensen, Marianna Mea, 2017-03-22 Marine management requires approaches which bring together the best research from the natural and social sciences It requires stakeholders to be well informed by science and to work across administrative and geographical boundaries a feature especially important in the inter connected marine environment Marine management must ensure that the natural structure and functioning of ecosystems is maintained to provide ecosystem services Once those marine ecosystem services have been created they deliver societal goods as long as society inputs its skills time money and energy to gather those benefits However if societal goods and benefits are to be limitless society requires appropriate administrative legal and management mechanisms to ensure that the use of such benefits do not impact on environmental quality but instead support its sustainable use

Evaluation of Online Higher Education Ana Balula, António Moreira, 2014-05-27 The

work presents a theoretical framework for the evaluation of e Teaching that aims at positioning the online activities designed and developed by the teacher as to the Learning Interaction and Technology Dimensions The theoretical research that underlies the study was developed reflecting current thinking on the promotion of quality of teaching and of the integration of information and communication tools into the curriculum in Higher Education HE i e bearing in mind some European guidelines and policies on this subject This way an answer was sought to be given to one of the aims put forward in this study namely to contribute towards the development of a conceptual framework to support research on evaluation of e teaching in the context of HE Based on the theoretical research carried out an evaluation tool SCAI was designed which integrates the two questionnaires developed to collect the teachers and the students perceptions regarding the development of e activities Consequently an empirical study was structured and carried out allowing SCAI tool to be tested and validated in real cases From the comparison of the theoretical framework established and the analysis of the data obtained we found that the differences in teaching should be valued and seen as assets by HE institutions rather than annihilated in a globalizing perspective

Algal Technologies for Wastewater Treatment and Resource Recovery Raul Muñoz,Hardy Temmink,Anthony M. Verschoor,Peter van der Steen,2019-07-26 Over 80% of globally produced wastewater receives little or no treatment before it is disposed into the environment Therefore it is urgent to develop new wastewater treatment technologies that are sustainable in the broad sense of the word i e not only produce high quality effluents but also minimise energy expenses recover energy and nutrients and apply technology that is appropriate in relation to the availability of skilled personnel This book compiles the main outcomes of

recent efforts to improve the design of waste stabilisation ponds and confirms the superior performance of high rate algal ponds as a result of process intensification Anaerobic digestion devoted to biogas production continues to be the preferred strategy for the energy valorisation of the algal biomass co digestion with multiple high C N ratio substrates gathering significant attention over the past years The potential of algal biomass as a biosorbent for heavy metal removal Cu Ni F maintains its share in the research field of water bioremediation while research on nutrient removal has focused on providing new insights on the mechanism of nitrogen and phosphorus removal from wastewater in algal bacterial systems Finally it is worth noticing that breakthroughs in complementary fields of research such as nanotechnology or lighting technology are gradually being implemented in algal biotechnology with new products such as nanoparticles for water disinfection or photobioreactors illuminated by low intensity LED panels In Focus a book series that showcases the latest accomplishments in water research Each book focuses on a specialist area with papers from top experts in the field It aims to be a vehicle for in depth understanding and inspire further conversations in the sector

Maternal-Perinatal Risk and Children-Adolescent Health Julian Alberto Herrera, Adalberto Sanchez, Kristine G.
