

## Essay about Drunk Driving

13 pages | 3027 words

Drunk driving is a primary cause of highway traffic accidents causing deaths and injuries with enormous monetary costs to society. The drunk driving was first recognized as a policy problem in the literature in 1904, approximately 5 years after the first highway traffic fatality in the United States (Voas and Lacey). In 1982, the National Highway Traffic Safety Administration started keeping statistics of alcohol related crashes through its Fatality Analysis Reporting System (FARS) (Stewart and Fell).

In 1982, there were 26,173 alcohol related fatalities, which constituted 60% of all highway fatalities. In 2002, about 17,419 or roughly 41% of about 42,815 highway fatalities were estimated to be alcohol related which indicates a 19% change since 1982 (Stewart and Fell). Overall, alcohol related traffic fatalities have reduced by about 33% over the last two decades. Policies implemented to curb drunk driving in the last two decades seem to have an impact on alcohol related fatalities.

FARS data shows a 62% decrease (1.64 to .61) in alcohol related fatality rate since 1982 (Stewart and Fell). The general decline in the alcohol related fatalities for the general population is believed to be due to a combination of deterrent based laws, increased alcohol awareness and decrease in alcohol consumption, increased publicity about prevention, and general car safety measures (Stewart and Fell). Starting 1980s, drunk driving has been conceptualized as a criminal justice issue.

With the effect of Mothers Against Drunk Driving (MADD) and some other citizen activist groups, the issue has become a public policy problem in which drunk drivers are defined as "sinful killers" who drink and drive irresponsibly and claim lives of "innocent" victims. These efforts, according to Ross, created a "dominant paradigm" which focuses on the blameworthy driver. Thus, framing the issue as of a "sin" and drunk drivers as "deviants" has dominated the policymaking process and socially constructed the drunk drivers as a target group with negative connotations in public mind (Meier).

Policymakers responded the demands by legislating stricter deterrent based measures to punish those "criminal" drunk drivers and deter drunk driving to save lives (Ross). Therefore, it is important to examine how drunk driving emerged as a policy problem and how deterrent based laws are introduced and accepted as a solution to the problem. This paper examines also the effects of MADD on legislation of drunk driving laws and effects of those laws on alcohol related fatalities. Background

The struggle against drunk driving as a traffic safety problem began in late 1960s. Before 1960s, the federal government's influence on states' drunk driving policies was minimal. The national character and seriousness of traffic safety problems prompted Congress to enact the Highway Safety Act and the Motor Vehicle and Traffic Safety Act, in 1966. In 1967, the Secretary of Transportation officially promulgated the first federal drunk driving standards in the National Uniform Standards for State Highway Safety Programs.

One of the requirements of this program was for each state to utilize chemical tests for determining blood alcohol levels (BAC) and to enact BAC limits of...

*The Writer's Choices* Leonora Woodman, Thomas P. Adler, 1988      Constructing Rhetorical Education Davida Charney, Wilma R. Ebbitt, 1992 In nineteen essays illustrating its many aspects this book offers an argument for what it takes to construct a complete rhetorical education The editors take an approach that is pragmatic and pluralistic based as it is on the assumptions that a rhetorical education is not limited to teaching freshman composition or any specific writing course and that the contexts in which such an education occurs are not limited to classrooms This thought provoking volume stresses that while a rhetorical education results in the growth of writing skills its larger goal is to foster critical thinking

Lerner, 2011-10-14 Don't drink and drive It's a deceptively simple rule but one that is all too often ignored And while efforts to eliminate drunk driving have been around as long as automobiles every movement to keep drunks from driving has hit some alarming bumps in the road Barron H Lerner narrates the two strong and vocal sides to this debate in the United States those who argue vehemently against drunk driving and those who believe the problem is exaggerated and overregulated A public health professor and historian of medicine Lerner asks why these opposing views exist examining drunk driving in the context of American beliefs about alcoholism driving individualism and civil liberties Angry and bereaved activist leaders and advocacy groups like Mothers Against Drunk Driving campaign passionately for education and legislation but even as people continue to be killed many Americans remain unwilling to take stronger steps to address the problem Lerner attributes this attitude to Americans love of drinking and love of driving an inadequate public transportation system the strength of the alcohol lobby and the enduring backlash against Prohibition The stories of people killed and maimed by drunk drivers are heartrending and the country's routine rejection of reasonable strategies for ending drunk driving is frustratingly inexplicable This book is a fascinating study of the culture of drunk driving grassroots and professional efforts to stop it and a public that has consistently challenged and tested the limits of individual freedom Why despite decades and

decades of warnings do people still choose to drive while intoxicated One for the Road provides crucial historical lessons for understanding the old epidemic of drunk driving and the new epidemic of distracted driving **Critical Thinking Skills**
