

Abortion Argumentative Essay Outline

Introduction:

Abortion is a controversial issue with polarizing opinions from different people. Abortion [is/is not] moral because [write down your reason why you do/don't consider it moral]

Body Paragraph 1:

Abortion [should/shouldn't] be legal because it is [write your point of view according to the thesis statement and relevant facts]

Example claims in favor of abortion:

- It is a right provided by the constitution.
- It is a woman's right to decide for her body.
- Fetus cannot feel the pain during abortion.
- It is safer when the process of abortion is legal.
- Financial capacity affects the decision of abortion.

Example claims against abortion:

- Abortion mean killing another life.
- A fetus has the same human rights as that of any other human.
- Fetus can feel the pain.
- Abortion can have a drastic effect on the mind of a woman.
- Abortion can be dangerous for mother's health as well.

Body Paragraph 2:

Another reason abortion [should/should not] be legal is [that/the fact that] [write another claim in support of your thesis statement].

Body paragraph 3:

A [researcher/scientist] on the issue of abortion found that [write down a quote from the researcher or scientist to support your stance on abortion.]

Argumentative Research Paper On Abortion

**United States. National Bioethics
Advisory Commission**

Argumentative Research Paper On Abortion:

Logical Argument in the Research Paper Russ Ward, 1997 Logical Argument in the Research Paper operates on the premise that collegiate level writing when cast in its most significant and sophisticated form is argumentative. Students are shown how writers examine a potential topic, establish a stance upon that topic, defend the stance, avoid reasoning and ethical errors and in general say something meaningful about the topic. It also includes instruction about finding sources, gathering information from them and correctly documenting them. However, the emphasis remains on how effective writers evaluate sources, think about the information they discover, prepare a fair and informed argument, rethink and revise the argument and finally present an argument in its completed form. Logical Argument in the Research Paper will help students learn some of the reasoning processes that all writers use when composing the academic argument. **Research on the Fetus** United States. National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research, 1976

Disturbing Argument Catherine Palczewski, 2015-01-30 This edited volume represents the best of the scholarship presented at the 18th National Communication Association American Forensic Association Conference on Argumentation. This biennial conference brings together a lively group of argumentation scholars from a range of disciplinary approaches and a variety of countries. Disturbing Argument contains selected works that speak both to the disturbing prevalence of violence in the contemporary world and to the potential of argument itself to disturb the very relations of power that enable that violence. Scholars' essays analyze a range of argument forms including body and visual argument, interpersonal and group argument, argument in electoral politics, public argument, argument in social protest, scientific and technical argument, and argument and debate pedagogy. Contributors study argument using a range of methodological approaches from social scientifically informed studies of interpersonal group and political argument to humanistic examinations of argument theory, political discourse and social protest to creatively informed considerations of argument practices that truly disturb the boundaries of what we consider argument. Research on the Fetus: Appendix United States. National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research, 1975 **Ethical Issues in Human Stem Cell**

Research: Commissioned papers United States. National Bioethics Advisory Commission, 2000 **Abortion, Motherhood, and Mental Health** Ellie Lee, Whatever reproductive choices women make, whether they opt to end a pregnancy through abortion or continue to term and give birth, they are considered to be at risk of suffering serious mental health problems. According to opponents of abortion in the United States, potential injury to women is a major reason why people should consider abortion a problem. On the other hand, becoming a mother can also be considered a big risk. This fine, well-balanced book is about how people represent the results of reproductive choices. It examines how and why pregnancy and its various outcomes have come to be discussed this way. The author's interest in the medicalization of reproduction, its representation as a mental health problem, first arose in relation to abortion. There is a very clear contrast between the

construction of women who have abortions implied by moralized argument against abortion and the construction that results when the case against abortion focuses on its effects on women's mental health Lee argues that claims that connect abortion with mental illness have been limited in their influence but this is not to suggest that they have not become a focus for discussion and have had no impact The limits to such claims about abortion do not by any means suggest limits to the process of the medicalization of pregnancy more broadly that is a process of demedicalization The final theme of Ellie Lee's book is the selective medicalization of reproduction Centering on the claim that abortion can create a post-abortion syndrome the author examines the medicalization of the abortion problem on both sides of the Atlantic Lee points to contrasts in legal and medical dimensions of the abortion issue that make for some important differences but argues that in both the United States and Great Britain the post-abortion syndrome claim constitutes an example of the limits to medicalization and the return to the theme of motherhood as a psychological ordeal Lee makes the case for looking to the social dimensions of mental health problems to account for and understand debates about what makes women ill Ellie Lee is research fellow in the Department of Sociology and Social Policy University of Southampton Highfield United Kingdom

In Search of Common Ground on Abortion Robin West, Justin Murray, Meredith Esser, 2016-05-23 This book brings together academics legal practitioners and activists with a wide range of pro-choice pro-life and other views to explore the possibilities for cultural philosophical moral and political common ground on the subjects of abortion and reproductive justice more generally It aims to rethink polarized positions on sexuality morality religion and law in relation to abortion as a way of laying the groundwork for productive and collaborative dialogue Edited by a leading figure on gender issues and emerging voices in the quest for reproductive justice a broad concept that encompasses the interests of men women and children alike the contributions both search for common ground between opposing positions in our struggles around abortion and seek to bring balance to these contentious debates The book will be valuable to anyone interested in law and society gender and religious studies and philosophy and theory of law

Ethical Issues in Human Stem Cell Research: Report and recommendations of the National Bioethics Advisory Commission United States. National Bioethics Advisory Commission, 1999

Longitudinal Interactional Histories Amanda K. Kibler, 2018-10-31 This book explores the lives of five Mexican immigrant origin youths in the United States documenting their language and literacy journeys over an eight-year period from adolescence to young adulthood In these qualitative case studies the author uses a longitudinal interactional histories approach LIHA to explore literacy events in which the young people participated over time telling the stories behind texts they created in order to better understand opportunities for bilingual and biliterate development available inside and outside of formal schooling The book begins with an overview and exploration of theories and research underpinning the project with a focus on countering minoritizing discourses faced by many multilingual immigrant youth and prioritizing the goodness of their experiences The study's methodology including LIHA is presented before individual case studies of all five youth are explored The book closes with a

synthesis of these cases and exploration of pedagogical policy and research implications It will be of particular interest to students and scholars of education applied linguistics and sociolinguistics as well as teachers and policy makers working with bilingual and biliterate immigrant youth *Fetal Tissue Transplantation Research* United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Health and the Environment, 1990

Unveiling the Power of Verbal Beauty: An Emotional Sojourn through **Argumentative Research Paper On Abortion**

In a global inundated with displays and the cacophony of instantaneous conversation, the profound energy and emotional resonance of verbal art frequently fade in to obscurity, eclipsed by the regular assault of sound and distractions. Yet, situated within the lyrical pages of **Argumentative Research Paper On Abortion**, a interesting function of literary splendor that pulses with organic thoughts, lies an wonderful trip waiting to be embarked upon.
