
Arizona Defensive Driving Test Questions and Answers (Graded A)

What are the speed limits under Arizona Motor Vehicle Laws? - Answer- Arizona law 28-701 sets the speed limit in a business or residential district at 25 mph. AZ law 28-702.04 sets the speed limit on the interstate in urbanized areas (pop. of 55,000 or greater) 65 mph. In non-urbanized areas, the interstate speed limit is 75 mph. The speed limit may be lower in certain metropolitan areas. AZ law sets the maximum speed limit in a school zone at 15 mph.

Arizona as well as many other states, requires drivers to always drive at a safe, reasonable and prudent speed. This means the driver of a motor vehicle may be required to drive at a speed lower than the posted limit. This applies when the roadway is slippery, visibility is poor, or traffic conditions are such that it is unsafe to drive at the posted speed limit. This also includes pedestrian traffic. For example, a driver may be cited for driving the posted speed limit when it is not safe to do so.

What precautions should you take when entering an intersection on a green light? - Answer- Always look for oncoming traffic. Use good defensive driving techniques to anticipate red light runners. Watch for pedestrians, bicyclists, and motorcycles that may have entered the intersection. If starting out from a stopped position hesitate a couple of seconds before accelerating to give additional time for the intersection to clear. Someone behind you may honk their vehicles horn, but better to be honked at than dead.

What is an intersection? - Answer- Under AZ law 28-601, an intersection means the area embraced within the prolongation or connection of the lateral curb lines, or if none, the lateral boundary lines of the roadways of two highways that join one another at, or approximately at, right angles, or the area within which vehicles traveling on different highways joining at any other angle may come in conflict. If a highway includes two roadways thirty or more feet apart, each crossing of each road of the divided highway by an intersecting highway is a separate intersection. If the intersecting highway also includes two roadways thirty or more feet apart, each crossing of two roadways of the highways is a separate intersection.

What traffic law violations are primarily associated with traffic collisions? - Answer- Speeding, DUI, failure to yield the right of way, and failure to reduce speed or control speed. Remember that speeding is responsible for approximately 30 percent of all the fatal collision in the United States. 38 percent of the fatalities are due to impaired driving and that the majority of collisions occur at intersection as a result of someone usually failing to yield the right-of-way.
