Armor ,2007 **Monthly Catalog of United States Government Publications** ,2001 **Mortar Utilization at the Army's Combat Training Centers** Stephen J. Kirin,Rand Corporation,1992 This study was requested by the Center for Army Lessons Learned CALL whose data collection process at the Combat Training Centers CTCs indicated that mortar platoons in both light and heavy battalions in the United States and Europe were not making an effective contribution to battle outcomes Whereas their data contained anecdotal points and summary statements of mortar problems CALL wished for a more systematic investigation of the mortar problem so it could recommend remedial actions The objectives of this work were to answer four questions Is it true that mortars are underutilized at the CTCs Are CTC results a proper measure of mortar performance If the first two answers are yes can the causes of underutilization be identified and Can fixes be identified in doctrine training organization leadership or equipment to improve mortar performance Take Home Packages THP and field observations prepared by three CTCs were reviewed to assist in evaluating mortar training These data suggested that light medium and heavy mortar weapons were underutilized or ineffective at all three CTCs studied The National Training Center NTC the Joint Readiness Training Center JRTC and the Combat Maneuver Training Center CMTc The authors also reviewed the methods employed at each CTC to replicate indirect fire and its effects Battle Damage Assessment was performed by fire markers or by observer controllers according to fire effects tables These data confirmed that mortars caused little damage and mortar ammunition expenditure fell far below that expected Mortars are underutilized at the CTCs because of perceived limited effects of suppression and for heavy mortar training limited dismounted infantry activity at NTC and CMTc The authors conclude that staff planning failure is the prime cause of mortar underutilization The responsibility for this problem is shared between the maneuver and fire support staffs 45 tables 16 figures 19 refs 7
