Military Review ,2016 **Handbook of Military Administration** Jeffrey A. Weber,Johan Eliasson,2007-12-07 While policy makers are perpetually conceptualizing new reform packages the actual enactment of those reforms is typically more challenging Remarkably the one public institution that is able to meet that challenge is also the largest The United States Department of Defense which employs over 600 000 people and deals with 500 billion in fundin *The U.S. Army Leadership Field Manual* Center for Army Leadership (U.S.),2004-03-12 The official U S Army Guide Battle tested wisdom for leaders in any organization Includes bibliographical references and index **Field Manuals** United States. War Department,1980-05 **INSCOM Journal** ,1999 *World War I Leadership Characteristics That Could Make Future Military Leaders Successful* Major Robert J. Paquin,2015-11-06 This monograph analyzes the leadership characteristics that suggest a rapid acceptance of changing conditions in warfare among senior leaders and which leadership characteristics tend to suggest a more conservative approach This conservative approach fails to recognize and adapt to the new emerging conditions This research studied two World War I British leaders General Sir Ivor Maxse and General Sir Hubert Gough and compared and contrasted their leadership characteristics From this the research identified the most significant leadership characteristics that allowed these leaders to successfully adapt quickly in a time of transition The criteria for analysis was based on four leadership characteristics as defined in FM 22 100 Army Leadership Revised Final Draft dated June 1998 The four leadership characteristics used as evaluation criteria were personal courage initiative tactical skill and learning A comparison of the role of the two World War I leaders yields the conclusion that certain leadership characteristics allowed them to adapt more easily in an evolving environment and facilitated successful battlefield leadership These characteristics were moral courage initiative tactical skill and the application of knowledge through effective continual learning The monograph provides valuable insights into what leadership characteristics will allow current and future leaders to be successful and unsuccessful during a military transitional period Our leaders must be creative intuitive dynamic and able to make contemplated decisions and have the courage and determination to act on them The requirement for developing those leaders is an important one for the United States and a demanding one for the U S Army An understanding of these leadership characteristics and the reasons that they facilitate successful battlefield leadership can provide an intellectual foundation beneficial to the Army as it prepares for future warfare *Technical Report* ,2000 **Professional Journal of the United States Army** ,1997 **Military Leadership in the British Civil Wars, 1642-1651** Stanley D.
