MEMORANDUM FOR PARCs

SUBJECT: Army Source Selection Manual (ASSM)

The ASSM is approved and effective February 1, 2007. It supersedes the Army Source Selection Guide dated June 2001.

The ASSM is a comprehensive source selection resource which recites best practices that promote source selection flexibility and consistency in Army source selections. The ASSM is designed to provide a given framework so that contracting officers and other U.S. Army acquisition professionals can best execute source selection plans and requests for proposals to provide the optimum solution to the needs of their customers.

Source selection training must be provided to every source selection team to ensure all team members understand their respective roles and responsibilities during the source selection process. The Principal Assistant Responsible for Contracting is the responsible official for developing and overseeing the source selection training requirements tailored for his/her organization. It is my intent to measure improvements in source selections in one year as a result of the implementation and training provided to the acquisition community on the ASSM.

The Federal Acquisition Regulation and its supplements prescribe the general policies governing competitive, negotiated acquisitions. This ASSM will be incorporated as Appendix AA to the Army Federal Acquisition Regulation Supplement (AFARS) in the next AFARS revision.

The Deputy Assistant Secretary of the Army (Policy and Procurement) point of contact is Ms. Ann Scotti at (703) 604-7107, or e-mail: ann.scotti@hqda.army.mil.
