The Handy ARITHMOMETER

A Practical Adding Machine that everyone can afford!

Add long columns of figures up to 99,999,999, by placing the ARITHMOMETER directly on the sheet of figures or ledger book. When taking inventory, hold in the palm of hand.

A metal stylus is included with each machine. This is to be held as shown. 1—To reset machine, pull Clearing Bar firmly up, until zeros appear in all answer windows, then replace. Do this after every example. 2—Sliding Subtraction Face.

We suggest that you master each step before going on to the next example. Practice makes for speed. As quickly as you can set numbers on the ARITHMOMETER, the totals will automatically appear in the windows below. Just set the numbers as they appear column by column, omit zeros, and if accurately set down, the results MUST be accurate.
