Imagining Early Modern Histories Elizabeth Ketner, Allison Kavey, 2016-07-15

Interpreting textual mediations of history in early modernity this volume adds nuance to our understanding of the contributions fiction and fictionalizing make to the shape and texture of versions of and debates about history during that period Geographically the scope of the essays extends beyond Europe and England to include Asia and Africa Contributors take a number of different approaches to understand the relationship between history fiction and broader themes in early modern culture They analyze the ways fiction writers use historical sources fictional texts translate ideas about the past into a vernacular accessible to broad audiences fictional depictions and interpretations shape historical action and the ways in which nonfictional texts and accounts were given fictional histories of their own intentionally or not through transmission and interpretation By combining the already contested idea of fiction with performance action and ideas ideology this collection provides a more thorough consideration of fictional histories in the early modern period It also covers more than two centuries of primary material providing a longer perspective on the changing and complex role of history in forming early modern national gendered and cultural identities
