The Mystery and the World Maria Clara Bingemer, 2016-05-10 During the past century an enormous effervescence of events changed the sociopolitical configuration of the world. The interpretation of these facts helped further deepen the crisis in which modern thought already found itself and it generated the uncertain and unstable environment in which we live today: the so-called postmodernity, late modernity or hypermodernity. In this context, one of the most profound impacts is most certainly the one on religion. During the twentieth century, religion proved not to be banished from the human horizon as the masters of suspicion intended. Known as the godless century, the twentieth century saw also a resuscitation of the search for the sense of life and spirituality. With the crisis of modern reason, humankind turned toward consumerism and provisional and light practices. The last century represents not only the height of the postmodernization process but also the rescue of the transcendent and absolute, even if it is an absolute without face and identity. It is in this scenario that religious experiences, apparently exiled by modern rationality, begin to occur and multiply again. Mystical experiences will be then the basis for highlighting recurrent characteristics with universal import. But they will show a different configuration than before. One will be able to find them not in so-called sacred spaces but in very secular ones, not so much within institutions but at the borders or even outside them, not configured by a specific tradition but in an interface that makes more than one tradition meet and dialogue.

Joseph Crawford,2014-05-15 This book explores the history of the paranormal romance genre from its origins in the revisionist horror fiction of the 1970s via its emergence as a minor sub genre of romantic fiction in the early 1990s to its contemporary expansion in recent years into an often controversial genre of mainstream fiction Tracing the genre from its roots in older Gothic fiction written by and for women it explores the interconnected histories of Gothic and romantic fiction from Ann Radcliffe and Jane Austen in the eighteenth century to Buffy Twilight True Blood and The Vampire Diaries in the present day In doing so it investigates the extent to which the post Twilight paranormal romance really does represent a break from older traditions of Gothic fiction and just what it is about the genre that has made it so extraordinarily divisive captivating millions of readers whilst simultaneously infuriating and repelling so many others
