Enlightenment vs Romanticism Olivia Clark,AI,2025-02-25 Enlightenment vs Romanticism explores the profound intellectual transition from the Age of Reason to the rise of Romanticism during the

French Revolution The book meticulously examines how the Enlightenment's emphasis on reason and universal principles gave way to Romanticism's focus on emotion individualism and the power of subjective experience This shift wasn't a simple replacement but a complex interplay challenging the notion that Romanticism was a complete rejection of reason In fact the emerging Romantic movement critically responded to the perceived limitations of Enlightenment rationalism amidst revolutionary upheaval The book progresses by first establishing the core tenets of Enlightenment thought then examining the emergence of Romanticism Through case studies of key thinkers it illustrates the tensions between these perspectives Finally it explores their influence on art literature and political movements What makes this book unique is its nuanced approach avoiding oversimplified characterizations and instead focusing on the complex interactions between these intellectual currents It offers a fresh perspective on the intellectual history of this transformative era **L.
