Welcome...

to your new Motorola CLE1 Digital Cordless Telephone!

- All the basics and the confidence of reliable, excellent sound.
- All features and functions, plus more.
- Ready to add handsets.
- Speakerphone for hands-free conversations.
- Caller ID* shows you who's calling and can display names and numbers in your Caller list.
- Redial up to 10 of the last numbers called.
- Register up to 4 handsets to make intercom calls between handsets, or to 4 different bases.
- Make intercom calls and transfer external calls between handsets.
- Choose from 10 different ringtones for internal and external calls as well as volume controls for handset and base.

Please note that this equipment is not designed for making emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

Need help?

If you have any problems setting up or using your CLE1, please contact Customer Services on 0370 850 0000. E-mail: support@uk.motorola.com

Also online, you may find the answer in the 'How' section of the basic (PDF) guide.

*You must subscribe to your network provider for Caller ID or Call Waiting services for these features to work. Check with your network provider for availability.

This user guide provides you with all the information you need to get the most from your phone.

To set up your phone, follow the simple instructions in 'Getting Started', on the next few pages.

IMPORTANT

Only use the adapter supplied with your product.

What else is in the box?

- CLE1 handset and base/charger
- 2 x rechargeable Ni-MH batteries (AAA)
- Power adapter for the base
- Telephone line cord

If you have purchased a CLE1 multipack you will also have the following additional items:

- Cordless handset & charger
- 2 x rechargeable Ni-MH batteries (AAA)
- Power adapter for the charger

ECOMODE is a concept we've built into many marketing, design, research, engineering and quality chain management that leads to greener products for users to use. It includes ideas that focus on health and environmental issues globally. Properties and characteristics of ideas.

The right thing to do.

- Means we don't use any harmful CFC's in the manufacturing and packaging materials.
- Our friendly packaging with a minimum of 30% recycled content, excluding cardboard.
- Phones in standby mode with a minimum of 50% recycled content, excluding cardboard.
- Energy efficient charger that meets EU Code of Conduct requirements.
- All EU models have switch-mode power supplies to save on energy consumption.

1. Getting started

IMPORTANT

Do not place your CLE1 in the bathroom or other humid areas.

Location

You need to place your CLE1 base within 2.0 metres of the mains power and telephone wall sockets so that the cables will reach. The wall sockets should be located near (but not too near) electrical appliances, such as TVs, computers, microwaves and fluorescent lights, which can cause interference.

Make sure that it is at least 1.5 metres away from other wireless equipment to avoid interference. Your CLE1 can be set to operating radio channels that reduce interference. This should not affect the way you use your phone, but if you experience interference, please refer to the 'How' section of the basic (PDF) guide.

Handset battery

The unit has a charge of up to 200 hours standby or talk time. Use it or lose it! Regular use helps the battery last longer. If you plan to be away for a long time, for example, on holiday, leave the handset in the charger.

Base, handset

The ▼ icon on your handset indicates that you are within range of the base. When out of range or the base is switched off, the ▼ icon flashes. If you are in a call, you will hear a warning beep.

The handset may go offline to save power when out of range of the base. When close to the base, the handset will automatically reconnect to the base.

Setting up

IMPORTANT

The mains adaptor must be plugged into the nearest socket at all times. Do not connect the telephone line cord to the wall socket until the handset is fully charged. Use only the power adaptor and telephone line cord supplied with these products.

Connecting the base

1. Plug the telephone line cord into the socket marked ⊥ on the underside of the base.
2. Plug the power adaptor into the socket marked ⏚ on the underside of the base and plug the other end into the mains socket and switch it on. Switch on the mains power.

Installing and charging the handset

1. Remove the battery cover from the back of the handset and insert the supplied NiMH battery pack (see inset). Please note the '+' and '–' markings inside the battery compartment and insert in the correct direction.
2. Slide the battery cover back into place.
3. If you are charging the battery for the first time, place the handset on the base to charge for at least 20 hours continuously.
4. When the handset is fully charged, 100 will appear steady on the display. Pressing any other key will take you back to the idle screen and it will already be logged into the base and is ready to use.

Connecting the handset and charger (for multi pack only)

If you have purchased a multiple pack, you will need to connect the remaining chargers for all the handsets and chargers.

1. Plug the power adaptor into the nearest socket ⏚ on the underside of the charger and plug the other end into the mains power wall socket.
2. Remove the battery cover from the back of the handset and insert the CLE1BATT battery pack (see inset). Please note the '+' and '–' markings inside the battery compartment and insert in the correct direction.
3. Slide the battery cover back into place.

If you are charging the batteries for the first time, place the handset in the charger to charge for at least 20 hours continuously.

4. When the handset is fully charged, 100 will appear steady on the display. The display will show HANDSET and prompt you to press any key. Do so to indicate that it is registered to the base.

IMPORTANT

Warning: Use only the approved rechargeable Ni-MH battery pack (2), which is from Motorola and is the specific battery pack specified with your CLE1.

Please do not use alkaline or non-rechargeable batteries. It may cause permanent damage to the product and void the warranty.

BATTERY USE AND CHARGE

If 🔋 icon flashes on the display and you have entered a telephone number, the number will be retained for a few minutes after the battery runs out of power.

When charging 100 icon will scroll on the display. Once fully charged scrolling will stop.

BATTERY PERFORMANCE

A new or recalibrated, fully charged battery should give up to 10 hours talk time or up to 200 hours standby time on a single charge.

Note that new batteries do not reach their full capacity until they have been cycled (used and recharged) a few times.

To keep your batteries in the best condition, clean the two metal contacts of the battery every time.

During the battery life, light shows or beeps may occasionally not keep time with your calls.

This changes caused by the rechargeable battery's performance will show as they need to be charged for longer periods with intervening time. Eventually they will need to be replaced.

After charging or removing the handset from the charger, unplug the charger to avoid unnecessary battery and electricity consumption during charging. This is normal.

Although each handset and base are uniquely coded to prevent unauthorised use, this does not guarantee absolute security against eavesdropping.

Date and time

If you have subscribed to Caller ID, the time, date and name and number are set automatically for all incoming calls you receive (see page 4).

If you do not have a Caller ID service, or can't set the date and time automatically, see section 11 'Clock & Alarm'.

Your CLE1 is now ready for use.
