14 November Economics Paper1 Zimsec

J Spring

14 November Economics Paper1 Zimsec:

Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe. It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime. The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures. This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations. While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education. Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic. The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes.

Zimbabwe National Bibliography, 1994

Uneven Zimbabwe Patrick Bond, 1998 Uneven Zimbabwe examines the influence of domestic and international financial markets and financiers in uneven development in Zimbabwe using and contributing to the tools of radical political economy. Theoretically Bond begins with criticism of the classical Marxist concepts of finance capital for focusing on institutional characteristics and failing to grasp underlying dynamics. Instead as economic crisis tendencies emerge the power of finance periodically intensifies temporarily displacing crisis through time and space and across geographical scales. But the limits of the financial solution become evident when paper assets delink from the productive assets they are meant to represent as well as in the role that finance plays in amplifying uneven development across different economic sectors spaces and scales.

Economics and Political Implications of International Financial Reporting Standards Uchenna, Efobi, Nnadi, Matthias, Tanna, Sailesh, Iyoha, Francis, 2016-03-08 International Financial Reporting Standards (IFRS) are internationally recognized financial reporting guidelines regulated by the International Accounting Standards Board (IASB) to ensure that uniformity exists in the global financial system. In addition to regulating financial reporting the adoption of IFRS has been shown to impact the flow of foreign capital and trade.

Economics and Political Implications of International Financial Reporting Standards focuses on the consequences and determinants of the adoption of the International Financial Reporting Standard (IFRS) which has remained a top issue in International Accounting. This timely publication brings to the forefront issues related to the political and economic influences and impacts of IFRS in addition to providing a platform for further research in this area. Policy makers academics researchers graduate level students and professionals across the fields of management economics finance international

relations and political science will find this publication pertinent to furthering their understanding of financial reporting at the global level **Accessions List, Eastern Africa** Library of Congress. Library of Congress Office, Nairobi, Kenya,1988 Number 6 includes cumulative main and added entry index for the monographs listed in that year *The Zimbabwe Journal of Economics* ,1984 *African Food Systems* Emmanuel Ndhlovu,2025-07-26 This book explores the evolving nature of food systems in Africa which are at crisis point The authors present case studies from across the continent to propose innovative and contextually relevant approaches to food systems resilience and food systems sustainable transformation They investigate the contemporary challenges to food systems in Africa including climate change pandemics energy challenges and war and conflict inside and outside Africa This book demonstrates how approaches to food can shift away from production consumption and value chains toward safety networks and complexity This book brings new insight to the challenges in food systems from many disciplines from agriculture tourism health climate science AI and digital science political science and economics **Tourism and Transport** David Timothy Duval,2007-09-24 The global growth of tourism has been matched by the significant growth in transport networks In many ways transport and tourism can be considered mutually dependent Understanding the dimensions of tourism requires an understanding of how transport is governed regulated and operated and how it subsequently facilitates tourism development This book provides an overview of the relationships between various modes and types of transport and tourism It views transport through various lenses including inter governmental regulations national government regulation the scope of transport networks and how this influences the shape of tourism and the marketing and management of transport operations The book ends with some considerations for the future of transport and tourism including the management of environmental consequences and new forms of tourism related transport Economic Management in a Hyperinflationary Environment George Kararach,Raphael O. Otieno,2016 This volume provides a political economy analysis of leadership and economic management in crises in developing economies based on Zimbabwe s experience The Potential Contribution of the Zimbabwe Diaspora to Economic Recovery ,2010
