2014 Geography Grade 1memo:

Taken for a Ride Matteo Rizzo, 2017 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam's public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world *Taken for a Ride* addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system's journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights A longitudinal study of workers throws light on patterns of occupational mobility in the sector The book ends with an analysis of the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it *Taken for a Ride* is an interdisciplinary political economy of public transport exposing the limitations of market fundamentalist and postcolonial approaches to the study of economic informality the urban experience in developing countries and their failure to locate the agency of the urban poor within their economic and political structures It is both a contribution to and a call for the contextualised study of neoliberalism **Asymmetric**

Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an

integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics 2014 Annual Competitiveness Analysis And Development Strategies For Indonesian Provinces Khee Giap Tan,Nurina Merdikawati,Mulya Amri,Blake Harley Berger,2015-09-08 This book is a world class report by the Asia Competitiveness Institute updated annually to analyse Indonesia s competitiveness at the provincial level With 104 indicators covering four environments the study s unique methodology incorporates comparative strengths and weaknesses Apart from scores and rankings what if policy simulations offer various provinces practical prescriptions to improve overall competitiveness to accelerate economic growth and development in a balanced fair and sustainable way Such qualitative and quantitative analyses in collaboration with various stakeholders generate an exciting pathway for Indonesia to attain its rightful place in both the Asian region and global contexts *Middle-Class African American English* Tracey L.
