2014 Global Regents Answer Key:

The Corporation as a Protagonist in Global History, c. 1550-1750, 2018-12-10 William A Pettigrew and David Veevers put forward a new interpretation of the role Europe's overseas corporations played in early modern global history recasting them from vehicles of national expansion to significant forces of global integration Across the Mediterranean Atlantic Indian Ocean and Pacific corporations provided a truly global framework for facilitating the circulation movement and exchange between and amongst European and non European communities bringing them directly into dialogue often for the first time Usually understood as imperial or colonial commercial enterprises *The Corporation as a Protagonist in Global History* reveals the unique global sociology of overseas corporations to provide a new global history in which non Europeans emerged as key stakeholders in European overseas enterprises in the early modern world Contributors include Michael D Bennett Aske Laursen Brock Liam D Haydon Lisa Hellman Leonard Hodges Emily Mann Simon Mills Chris Nierstrasz Edgar Pereira Edmond Smith Haig Smith and Anna Winterbottom *Mooring the Global Archive* Martin Dusinger, 2023-10-05 Martin Dusinger follows the Yamashiro maru steamship across Asian and Pacific waters in an innovative history of Japan's engagement with the outside world in the late nineteenth century His compelling in depth analysis reconstructs the lives of some of the thousands of male and female migrants who left Japan for work in Hawaii Southeast Asia and Australia These stories bring together transpacific historiographies of settler colonialism labour history and resource extraction in new ways Drawing on an unconventional and deeply material archive from gravestones to government files paintings to song and from digitized records to the very earth itself Dusinger addresses key questions of method and authorial positionality in the writing of global history This engaging investigation into archival practice asks what is the global archive where is it cited and who are we as we cite it This title is also available as Open Access **Carbon Societies** Peter Wagner, 2024-05-30 The climate crisis is humanmade Its main cause is the burning of fossil fuels To combat climate change we have to understand how we arrived at where we are This book explores the reasons why human societies have embarked on the trajectory of ever increasing use of fossil fuels Population growth desire for freedom from want and profit seeking all played major roles in shaping human history but there has been no inevitable drive towards heating up the atmosphere in the pursuit of social objectives To sustain a growing population more natural resources are required but their use does not need to generate climate change No logic of modernity links freedom with a kind of material abundance that requires the burning of fossil fuels No logic of capital necessarily ties the search for profit to the extraction of fossil resources Examining the critical junctures in human history when resource regimes changed this book identifies the social problems that were meant to be solved by burning fossil fuels and the power hierarchies that shaped the decisions to use them Wagner argues that the key choices that led to the climate emergency were made relatively recently during the second half of the 20th century they are close enough in time for us to undo the prevailing social logic of fossil fuels By redefining the key problems that humankind is

facing and reshaping the existing mechanisms of power we can take the decisive action needed to reduce our dependence on fossil fuels and avert the worst consequences of climate change
