2014 History Paper Preparatory Examination Memorandum:

Extraordinary Rendition Elspeth Guild, Didier Bigo, Mark Gibney, 2018-04-17 The US led programme of extraordinary rendition created profound challenges for the international system of human rights protection and rule of law This book examines the efforts of authorities in Europe and the US to re establish rule of law and respect for human rights through the investigation of the program and its outcomes The contributions to this volume examine the supranational and national inquiries into the US CIA led extraordinary rendition and secret detention programme in Europe The book takes as a starting point two recent and far reaching developments in delivering accountability and establishing the truth First the publication of the executive summary of the US Senate Intelligence Committee Feinstein Report and second various European Court of Human Rights judgments regarding the complicity of several state parties and the incompatibility of those actions with the European Convention of Human Rights and Fundamental Freedoms ECHR The collective volume provides the first stock taking review of the state of affairs in the quest for accountability and identifies significant obstacles in going even further as international law demands It will be vital reading for students and scholars in a wide range of areas including international relations international law public policy and counter terrorism studies

Vice Patrol Anna Lvovsky, 2024-05-31 In the mid twentieth century gay life flourished in American cities even as the state repression of queer communities reached its peak Liquor investigators infiltrated and shut down gay friendly bars Plainclothes decoys enticed men in parks and clubs Vice officers surveilled public bathrooms through peepholes and two way mirrors In Vice Patrol Anna Lvovsky chronicles this painful story tracing the tactics used to criminalize profile and suppress gay life from the 1930s through the 1960s and the surprising controversies those tactics often inspired in court Lvovsky shows that the vice squads campaigns stood at the center of live debates about not only the law s treatment of queer people but also the limits of ethical policing the authority of experts and the nature of sexual difference itself debates that had often unexpected effects on the gay community s rights and freedoms Examining those battles Vice Patrol enriches understandings of the regulation of queer life in the twentieth century and disputes about police power that continue today

Army History, 2014 *Military Neuroscience and the Coming Age of Neurowarfare* Armin Krishnan, 2016-10-04

Krishnan describes military applications of neuroscience research and emerging neurotechnology with relevance to the conduct of armed conflict and law enforcement. This work builds upon literature by scholars such as Moreno and Giordano and fills an existing gap not only in terms of reviewing available and future neurotechnologies and relevant applications but by discussing how the military pursuit of these technologies fits into the overall strategic context. The first to sketch future neurowarfare by looking at its potentials as well as its inherent limitations, this book's main theme is how military neuroscience will enhance and possibly transform both classical psychological operations and cyber warfare. Its core argument is that nonlethal strategies and tactics could become central to warfare in the first half of the twenty-first century. This creates both humanitarian opportunities in making war less bloody and burdensome as well as some unprecedented threats and dangers in terms of preserving freedom of thought and will in a coming age where minds can be manipulated with great precision.

Emergency War Plan Sean M. Maloney, 2021-02 Using strategic plans, intelligence analysis, and other materials that have only recently been declassified, *Emergency War Plan* examines the theory and practice of nuclear deterrence during the 1945-1960 period of the Cold War.

[World Ocean Assessment](#) Alan Simcock, 2017-04-17 This United Nations report examines the current state of knowledge of the world's oceans for policymakers and provides a reference for marine science courses.
