2014 Map Scores Missouri:

Toxic Inequality Thomas M. Shapiro, 2017-03-14 From a leading authority on race and public policy a deeply researched account of how families rise and fall today Since the Great Recession most Americans standard of living has stagnated or declined Economic inequality is at historic highs But inequality s impact differs by race African Americans net wealth is just a tenth that of white Americans and over recent decades white families have accumulated wealth at three times the rate of black families In our increasingly diverse nation sociologist Thomas M Shapiro argues wealth disparities must be understood in tandem with racial inequities a dangerous combination he terms toxic inequality In *Toxic Inequality* Shapiro reveals how these forces combine to trap families in place Following nearly two hundred families of different races and income levels over a period of twelve years Shapiro s research vividly documents the recession s toll on parents and children the ways families use assets to manage crises and create opportunities and the real reasons some families build wealth while others struggle in poverty The structure of our neighborhoods workplaces and tax code much more than individual choices push some forward and hold others back A lack of assets far more common in families of color can often ruin parents careful plans for themselves and their children Toxic inequality may seem inexorable but it is not inevitable America s growing wealth gap and its yawning racial divide have been forged by history and preserved by policy and only bold race conscious reforms can move us toward a more just society Everyone concerned about the toxic effects of inequality must read this book Robert B Reich This is one of the most thought provoking books I have read on economic inequality in the US William Julius Wilson

Critical Race Spatial Analysis Deb Morrison, Subini Ancy Annamma, Darrell D. Jackson, 2023-07-03 How does space illuminate educational inequity Where and how can spatial analysis be used to disrupt educational inequity Which tools are most appropriate for the spatial analysis of educational equity This book addresses these questions and explores the use of critical spatial analysis to uncover the dimensions of entrenched and systemic racial inequities in educational settings and identify ways to redress them The contributors to this book some of whom are pioneering scholars of critical race spatial analysis theory and methodology demonstrate the application of the theory and tools applied to specific locales and in doing so illustrate how this spatial and temporal lens enriches traditional approaches to research The opening macro theoretical chapter lays the foundation for the book rooting spatial analyses in critical commitments to studying injustice Among the innovative methodological chapters included in this book is the re conceptualization of mapping and space beyond the simple exploration of external spaces to considering internal geographies highlighting how the privileged may differ in socio spatial thinking from oppressed communities and what may be learned from both perspectives data representations that allow the construction of varied narratives based on differences in positionality and historicity of perspectives the application of redlining to the analysis of classroom interactions the use of historical archives to uncover the process of marginalization and the application of techniques such as the fotonovela and GIS to identify how spaces are defined and can be reimagined The

book demonstrates the analytical and communicative power of mapping and its potential for identifying and dismantling racial injustice in education The editors conclude by drawing connections across sections and elucidating the tensions and possibilities for future research Contributors Benjamin Blaisdell Graham S Garlick Leigh Anna Hidalgo Mark C Hogrebe Joshua Radinsky Daniel G Sol rzano William F Tate Ver nica N V lez Federico R Waitoller

Dying of Whiteness Jonathan M. Metzl, 2019-03-05 A physician s provocative Boston Globe and timely Ibram X Kendi New York Times Book Review account of how right wing backlash policies have deadly consequences even for the white voters they promise to help In election after election conservative white Americans have embraced politicians who pledge to make their lives great again But as physician Jonathan M Metzl shows in Dying of Whiteness the policies that result actually place white Americans at ever greater risk of sickness and death Interviewing a range of everyday Americans Metzl examines how racial resentment has fueled progun laws in Missouri resistance to the Affordable Care Act in Tennessee and cuts to schools and social services in Kansas He shows these policies costs increasing deaths by gun suicide falling life expectancies and rising dropout rates Now updated with a new afterword Dying of Whiteness demonstrates how much white America would benefit by emphasizing cooperation rather than chasing false promises of supremacy Winner of the Robert F Kennedy Book Award
