2014 Marx Operating Calendar

Henning Lohmann,Ive Marx

2014 Marx Operating Calendar:

Capitalism and the Political Economy of Work Time Christoph Hermann, 2014-10-17 John Maynard Keynes expected that around the year 2030 people would only work 15 hours a week In the mid 1960s Jean Fourasti still anticipated the introduction of the 30 hour week in the year 2000 when productivity would continue to grow at an established pace Productivity growth slowed down somewhat in the 1970s and 1980s but rebounded in the 1990s with the spread of new information and communication technologies The knowledge economy however did not bring about a jobless future or a world without work as some scholars had predicted With few exceptions work hours of full time employees have hardly fallen in the advanced capitalist countries in the last three decades while in a number of countries they have actually increased since the 1980s This book takes the persistence of long work hours as starting point to investigate the relationship between capitalism and work time It does so by discussing major theoretical schools and their explanations for the length and distribution of work hours as well as tracing major changes in production and reproduction systems and analyzing their consequences for work hours Furthermore this volume explores the struggle for shorter work hours starting from the introduction of the ten hour work day in the nineteenth century to the introduction of the 35 hour week in France and Germany at the end of the twentieth century However the book also shows how neoliberalism has eroded collective work time regulations and resulted in an increase and polarization of work hours since the 1980s Finally the book argues that shorter work hours not only means more free time for workers but also reduces inequality and improves human and ecological sustainability

Restorations of Empire in Africa Samuel Agbamu, 2024 The first full length study of how Italian colonialism in Africa used the history of Roman imperialism on the continent to legitimise and promote its own imperial endeavours Agbamu looks at a broad range of cultural documents to examine how the discourse of colonialism as the return of Rome to land rightfully Italian was disseminated

Translingual Narration Bert Mitchell Scruggs, 2015-07-31 Translingual Narration is a study of colonial Taiwanese fiction its translation from Japanese to Chinese and films produced during and about the colonial era It is a postcolonial intervention into a field largely dominated by studies of colonial Taiwanese writing as either a branch of Chinese fiction or part of a larger empire of Japanese language texts Rather than read Taiwanese fiction as simply belonging to one of two discourses Bert Scruggs argues for disengaging the nation from the former colony to better understand colonial

Taiwan and its postcolonial critics Following early chapters on the identity politics behind Chinese translations of Japanese texts attempts to establish a vernacular Taiwanese literature and critical space Scruggs provides close readings of short fiction through the critical prisms of locative and cultural or ethnic identity to suggest that cultural identity is evidence of free will Stories and novellas are also viewed through the critical prism of class consciousness including the writings of Yang Kui 1906 1985 who unlike most of his contemporaries wrote politically engaged literature Scruggs completes his core examination of identity by reading short fiction through the prism of gender identity and posits a resemblance between gender politics in colonial Taiwan and pre independence India The work goes on to test the limits of nostalgia and solastalgia in fiction and film by looking at how both the colonial future and past are remembered before concluding with political uses of cinematic murder Films considered in this chapter include colonial era government propaganda documentaries and postcolonial representations of colonial cosmopolitanism and oppression Finally ideas borrowed from translation and memory studies as well as indigenization are suggested as possible avenues of discovery for continued interventions into the study of postcolonial and colonial Taiwanese fiction and culture With its insightful and informed analysis of the diverse nature of Taiwanese identity Translingual Narration will engage a broad audience with interests in East Asian and postcolonial literature film history and culture
