2014 Public Partnership Payroll Schedule:

Rebalancing Public Partnership John Brothers, 2016-03-03 In the US as in many other Western economies federal and state government is working to become more involved with the nonprofit sector a sector in which many of the organizations are singularly ill prepared and strategically unaligned to fulfill the new role that is being asked of them Based on his original research John Brothers brings together leading thought leaders from the United States and around the world by exploring the prevailing attitudes and perceptions of the nonprofit sector towards government and vice versa and provides advice and direction to help both sides of the equation towards effective collaborative working The main themes cover the nature and implications of regulatory reform on the sector and how non government organizations should reengineer their practices There are also chapters on some of the hot button areas of government contracting and political advocacy The text includes best practice examples case studies as well as tools and templates from across the sectors Both sides of this emerging partnership need fast track education on each other s capabilities constraints and working practice Dr Brothers contributors provide some very valuable perspectives and insights that should inform and direct this process **Legislative Calendar**

Werner, 2024-05-13T00:00:00Z The Consulting Trap does a deep dive into how governments have become hooked on private consultancy firms with dire consequences for democratic decision making public accountability and accessible public services Hurl and Werner contend that firms like McKinsey Accenture KPMG and Deloitte increasingly take responsibility for core public services trapping governments in cycles of dependency Through orchestrating tax avoidance for the wealthy while engineering austerity for the rest these firms have created the foundations for the deepening privatization of the public services further entrenching their power Drawing on case studies from Canada and around the world Hurl and Werner investigate how big consultancies leverage social networks institutionalize relationships mine and commodify data and establish policy pipelines that facilitate the quick diffusion of ideas across jurisdictions Drawing from real world examples The Consulting Trap offers strategies for how these powerful firms can be resisted using people s audits public consultations access to information requests and social network analyses *Risk Management Strategies in Public-Private Partnerships* Obicci, Peter Adoko, 2017-03-03 Governments around the globe are facing a new framework of service delivery as public private partnerships become more prevalent Characterized as an innovative tool for change this area of socio economic development is transforming the world economy *Risk Management Strategies in Public Private Partnerships* is an essential reference source for the latest scholarly research on recent developments on the relationships between public agencies and private sectors and frameworks for effectively managing risk factors Featuring extensive coverage on a wide variety of topics and perspectives such as service delivery sustainability and contractual design this publication is ideally
