2014 Life Orientation Grade 12 Exemplar:

Perceptual Linguistic Salience: Modeling Causes and Consequences Alice Blumenthal-Dramé, Adriana Hanulíková, Bernd Kortmann, 2017-06-05 Recent years have seen an upsurge of interest in the notion of salience in linguistics and related disciplines While in top down salience perceivers endogenously direct their attention to a certain stimulus in the bottom up salience it is the stimulus itself which attracts attention In prototypical cases of bottom up salience the stimulus stands out because it is incongruous with a given ground by virtue of intrinsic physical characteristics But a stimulus may also cause surprise by virtue of deviating from a cognitive ground e g when violating social or probabilistic expectations This has prompted researchers to examine the relationship between expectations and the perceptual salience of linguistic stimuli in new ways This e book features contributions from different scientific frameworks The reader will find commentaries reviews and original research articles on models of sociolinguistic and morphological salience the role of attention affect and predictability and on how salient items are processed categorized and learned Taken together the articles in this volume contribute to our understanding of how the perceptual salience of linguistic forms and variants can be theoretically framed and methodologically operationalized in different areas of linguistic processing *Comprehensive Dissertation Index*, 1984 Vols for 1973 include the following subject areas Biological sciences Agriculture Chemistry Environmental sciences Health sciences Engineering Mathematics and statistics Earth sciences Physics Education Psychology Sociology Anthropology History Law political science Business economics Geography regional planning Language literature Fine arts Library information science Mass communications Music Philosophy and Religion *Comprehensive Dissertation Index: Education, D-H*, 1984
