2014 Midyear Grade 12 Time Table:

The Rich Get Richer and the Poor Get Prison Jeffrey Reiman, Paul Leighton, 2016-11-10 For nearly 40 years this classic text has taken the issue of economic inequality seriously and asked Why are our prisons filled with the poor Why aren't the tools of the criminal justice system being used to protect Americans from predatory business practices and to punish well off people who cause widespread harm The Rich Get Richer shows readers that much that goes on in the criminal justice system violates citizens sense of basic fairness It presents extensive evidence from mainstream data that the criminal justice system does not function in the way it says it does nor in the way that readers believe it should The authors develop a theoretical perspective from which readers might understand these failures and evaluate them morally and they to do it in a short and relatively inexpensive text written in plain language New to this edition Presents recent data comparing the harms due to criminal activity with the harms of dangerous but not criminal corporate actions Presents new data on recent crime rate declines which are paired with data on how public safety is not prioritized by the U S government Updates statistics on crime victimization wealth and discrimination plus coverage of the increasing role of criminal justice fines and fees in generating revenue for government Updates on the costs to society of white collar crime Updates and deepened analysis of why fundamental reforms are not undertaken Streamlined and condensed prose for greater clarity

Guilty People Abbe Smith, 2020-01-17 Criminal defense attorneys protect the innocent and guilty alike but the majority of criminal defendants are guilty This is as it should be in a free society Yet there are many different types of crime and degrees of guilt and the defense must navigate through a complex criminal justice system that is not always equipped to recognize nuances In Guilty People law professor and longtime criminal defense attorney Abbe Smith gives us a thoughtful and honest look at guilty individuals on trial Each chapter tells compelling stories about real cases she handled some of her clients were guilty of only petty crimes and misdemeanors while others committed offenses as grave as rape and murder In the process she answers the question that every defense attorney is routinely asked How can you represent these people Smith's answer also tackles seldom addressed but equally important questions such as Who are the people filling our nation's jails and prisons Are they as dangerous and depraved as they are usually portrayed How did they get caught up in the system And what happens to them there This book challenges the assumption that the guilty are a separate species unworthy of humane treatment It is dedicated to guilty people every single one of us

Sociology David M. Newman, 2016-08-16 Adapted from David M Newman's best selling Sociology Exploring the Architecture of Everyday Life this briefer streamlined version continues to show students how to see the unfamiliar in the familiar inspiring them to think critically about their own lives and social contexts As in the full text the author's approachable writing style and lively personal anecdotes make the Brief Edition a text that reads like a real book It uses the metaphors of architecture and construction to help students understand that society is not something that exists out there independently of themselves it is a human creation that is planned formed maintained or

altered by individuals Rather than surveying every subfield in sociology the Brief Edition focuses on the individual and society the construction of self and society and social inequality in the context of social structures **African American Women with Incarcerated Mates** Avon Hart-Johnson,2017-11-20 After four decades of mass incarceration in the U S the disproportionate number of black men in prisons has contributed to an epidemic of black women struggling to support fragile families Yet the literature is scant on how African American women are affected by the imprisonment of their partners Drawing on case studies and firsthand accounts the author brings needed perspective to the political economic and psychological challenges they face including the experience of symbolic imprisonment or serving time on the outside
