

A group of approximately 15 people, including cafeteria workers and students, are posing in a school hallway. They are holding a large white banner that reads "Happy National Cafeteria Workers Day" and "We ❤️ School LUNCH". One student is holding a yellow emoji with heart eyes, and another is holding a basket of blue-wrapped items. The background is a plain white wall with a blue baseboard.

Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board, 2016-05

Fallow Lands of Plenty Eric Klein, 2023-05-01 Can public schools feed themselves That deceptively simple question is like a fingernail picking at a fray in the fabric of 21st century public education Fallow Lands of Plenty chronicles one high school s attempt to feed itself and in doing so unravels the fabric of neoliberal education exposes its logics of dependence and control and begins to weave a new tapestry of education for community cooperation and resilience Set during the ongoing transition between post industrial globalization and the community structures that are to come this rich narrative moves from furrows of Appalachian red clay soil to the mountaintop homesteads of elder seed savers to the conveyor belts of sterilized food sorting machines and finally to a school s cafeteria on the day that 250 portions of student grown sweet potatoes were served Along the way Fallow Lands centers knowledges of place as well as the literal and metaphorical seeds of relocalized food and education systems Critical and theoretically informed the text disobeys the values purpose and canon of public education and proposes a fledgling pedagogy to address the challenges of the coming age ENDORSEMENTS Eric Klein s Fallow Lands of Plenty is a stirring manifesto for transforming public schools into centers of learning about community resilience and for transitioning to a pedagogy of relocalization that prepares students for the unstructuring of the hegemonic corporate food regime set in motion by climate collapse What sets Fallow Lands of Plenty apart is the ethic of relational care that informs Klein s deeply personal style of writing Incisive radical and accessible the writing uplifts students teachers elders cafeteria women and extension agents as co producers of new modes of public schooling in rural Appalachia that foster collective ownership of learning and intergenerational transfers of knowledge cast out by official state curricula Anatoli Ignatov Appalachian State University A must read for today and tomorrow s generations Fallow Lands of Plenty reminds us that our ancestors did things a certain way for certain reasons and the survival of this knowledge may very well mean our own Heath Robertson Cherokee Central Schools

The Labor of Lunch Jennifer E. Gaddis, 2019-11-12 There s a problem with school lunch in America Big Food companies have largely replaced the nation s school cooks by supplying cafeterias with cheap precooked hamburger patties and chicken nuggets chock full of industrial fillers Yet it s no secret that meals cooked from scratch with nutritious locally sourced ingredients are better for children workers and the environment So why not empower lunch ladies to do more than just unbox and reheat factory made food And why not organize together to make healthy ethically sourced free school lunches a reality for all children The Labor of Lunch aims to spark a progressive movement that will transform food in American schools and with it the lives of thousands of low paid cafeteria workers and the millions of children they feed By providing a feminist history of the US National School Lunch Program Jennifer E Gaddis recasts the humble school lunch as an important and often overlooked form of public care Through vivid narration and moral heft The Labor of Lunch offers a stirring call to action and a blueprint for school lunch reforms capable of delivering a

Pediatric Behavioral Nutrition Factors Areej

Hassan,2017-01-06 In Pediatric Behavioral Nutrition Factors Environment Education and Self Regulation the editor carefully selected each chapter individually to provide a nuanced look at how environment education and self regulation impact pediatric nutrition All the various factors that intertwine with and influence nutrition are not yet known and we often assume that poor nutrition is a socioeconomic issue This is a massive multifaceted topic The articles in this compendium make clear that this simplistic assumption is not accurate they were chosen to present as accurate a total image as possible based on recent research The final chapters offer innovative interventions that should become the foundation for ongoing investigation

Social Innovation and Sustainability Transition Geoff Desa,Xiangping Jia,2022-11-09 This book uses a historical and modern lens to reimagine the role that Extension could potentially play in catalyzing reciprocal co learning relationships between Land Grant Universities and their diverse local constituencies The establishment of statewide extension systems was once seen as a way to ensure that Land Grant Universities would be accessible and responsive to all of a state s residents Extension systems continue to offer a front door to a major public university in almost every county of the United States but they tend to be viewed primarily as a way to translate science or distribute information from the university to the public This books argues for the importance of Extension and shows that we are conceiving of this system too narrowly Only by retelling the stories of the Extension and getting people to see themselves as part of the story can we imagine a different future in which state universities and land grant colleges engage more authentically and equitably in two way relationships with their local constituents in catalyzing reciprocal co learning relationships between Land Grant Universities and their diverse local constituencies Chapter Palatable disruption the politics of plant milk chapter Feeding the melting pot inclusive strategies for the multi ethnic city chapter A carrot isn t a carrot isn t a carrot tracing value in alternative practices of food exchange chapter Virtualizing the good life reworking narratives of agrarianism and the rural idyll in a computer game and chapter Workable utopias for social change through inclusion and empowerment Community supported agriculture CSA in Wales as social innovation are available open access under a Creative Commons Attribution 4 0 International license via link [springer.com](https://www.springer.com)
