This book examines the renewed interest and commitment that countries across the world have shown in recent decades towards adopting models of decentralising or downsizing the state and moving towards more participatory models of government. It examines systems of decentralised development such as self-managing co-operatives from a global and comparative perspective with a focus on developing countries. Drawing on examples from Kerala and a few other states in India as well as Cuba, Bangladesh and South Africa among other countries, the book offers critical perspectives on the positive impacts of these experiments and the promises these offer for the future. It discusses the challenges of implementing these models, how well these work in coordination with the civil society and the state, issues of transparency and democratic oversight as well as corruption and capture of power due to entrenched structures of inequality. The volume analyses welfare and development models and self-management interventions in countering the effects of the COVID-19 pandemic. It also looks at the merits and demerits of decentralisation in countering the global socioeconomic and environmental crisis and the rise of authoritarian populism in many countries. The book will be of interest to students and researchers of development studies, political science, business, community development, social justice as well as of co-operative management programmes. It will also appeal to students of political economy as well as development professionals, think tanks and policymakers.

Feminist Futures Kum-Kum Bhavnani, John Foran, Priya A. Kurian, Debashish Munshi, 2016-10-15 Straddling disciplines and continents, *Feminist Futures* interweaves scholarship and social activism to explore the evolving position of women in the South. Working at the intersection of cultural studies, critical development studies and feminist theory, the book's contributors articulate a radical and innovative framework for understanding the linkages between women, culture and development, applying it to issues ranging from sexuality and the gendered body to the environment, technology and the cultural politics of representation. This revised and updated edition brings together leading academics as well as a new generation of activists and scholars to provide a fresh perspective on the ways in which women in the South are transforming our understanding of development.
