2014 November Geography Theory Examination Memo:

Postwar Laura McEnaney, 2018-09-07 When World War II ended Americans celebrated a military victory abroad but the meaning of peace at home was yet to be defined From roughly 1943 onward building a postwar society became the new national project and every interest group involved in the war effort from business leaders to working class renters held different visions for the war's aftermath In *Postwar* Laura McEnaney plumbs the depths of this period to explore exactly what peace meant to a broad swath of civilians including apartment dwellers single women and housewives newly freed Japanese American internees African American migrants and returning veterans In her fine grained social history of postwar Chicago McEnaney puts ordinary working class people at the center of her investigation What she finds is a working class war liberalism a conviction that the wartime state had taken things from people and that the postwar era was about reclaiming those things with the state's help McEnaney examines vernacular understandings of the state exploring how people perceived and experienced government in their lives For Chicago's working class residents the state was not clearly delineated The local offices of federal agencies along with organizations such as the Travelers Aid Society and other neighborhood welfare groups all became what she calls the state in the neighborhood an extension of government to serve an urban working class recovering from war Just as they had made war the urban working class had to make peace and their requests for help large and small constituted early dialogues about the role of the state during peacetime *Postwar* examines peace as its own complex historical process a passage from conflict to postconflict that contained human struggles and policy dilemmas that would shape later decades as fatefully as had the war

science and social science journals *Restraint* Barry R. Posen, 2014-06-03 The United States Barry R Posen argues in *Restraint* has grown incapable of moderating its ambitions in international politics Since the collapse of Soviet power it has pursued a grand strategy that he calls liberal hegemony one that Posen sees as unnecessary counterproductive costly and wasteful Written for policymakers and observers alike *Restraint* explains precisely why this grand strategy works poorly and then provides a carefully designed alternative grand strategy and an associated military strategy and force structure In contrast to the failures and unexpected problems that have stemmed from America s consistent overreaching Posen makes an urgent argument for restraint in the future use of U S military strength After setting out the political implications of restraint as a guiding principle Posen sketches the appropriate military forces and posture that would support such a strategy He works with a deliberately constrained notion of grand strategy and even more important of national security which he defines as including sovereignty territorial integrity power position and safety His alternative for military strategy which Posen calls command of the commons focuses on protecting U S global access through naval air and space power while freeing the United States from most of the relationships that require the permanent stationing of U S forces overseas
