## Most Wanted

**Classroom:** "There is an element in the periodic table that does not want to be included. Actually, this element is 'invisible.' He can't be included in the standard classification being used. He is just like the others up until it comes to being included. However, he does not want to be included, so he stays out of all these classifications and connections that we have. Therefore, including the correct identity for each other before will ultimately help you find the element this detective is looking for and you can be a detective to get the real story. He, of course, is **not** included in all other all these and elements that follow. He is wearing a red cape and he is a right group."
