2008 2009 Required Textbooks:

Textbooks in Academic Libraries Chris Diaz, 2018-12-03 Shortly after the syllabi are posted and long before the beginning of the term interlibrary loan departments at academic libraries will have filled or rejected innumerable textbook requests While it would be unwise if not impossible to buy and circulate every textbook at a college or university there are many academic libraries who are selectively adding textbooks to their collections And the practice seems to be gaining momentum In this volume the Association for Library Collections and Technical Services ALCTS and editor Chris Diaz gather case studies that pull together creative approaches and best practices for print textbook reserve programs This book discusses such topics as results and analysis from a detailed survey of a state university's core course textbook reserve program funding sources for starting or piloting a program using aggregated enrollment grade and textbook cost data to identify high impact courses identifying course related books that are in the library's collection or fit an existing collection policy workflow for using bookstore data with ILS and purchasing systems and using LibGuides and Google Sheets to publicize textbook holdings and how a back end database supports discovery for students and reporting for reserves staff A textbook reserve program can be one way of helping students who are struggling with the high cost of textbooks and this book spotlights a variety of examples that can be used as models

Getting Textbooks to Every Child in Sub-Saharan

Africa Birger Fredriksen, Sukhdeep Brar, 2015-05-22 Textbooks play a key role in enhancing the quality of learning especially in the context of low income Sub Saharan African SSA countries characterized by large class size poorly motivated and inadequately trained teachers and short effective school years There are also high rates of illiteracy among parents and few reading materials at home for the student to bank on Despite extensive investments by governments the World Bank and other development partners the majority of students in primary and secondary schools in SSA still lack the benefit of access to textbooks and the key reason for this shortage is affordability textbooks are generally much more costly in SSA than in other developing regions The need to increase access to key learning resources is of particular urgency because most African countries experience low learning outcomes which in part contributes to a high drop out rate Only two thirds of those who enter school reach the final grade and only about half of these master basic numeracy and literacy skills And although quality improvement depends on many factors inside and outside the school there is wide agreement that availability of textbooks is both an indispensable and a cost effective way of improving the quality of the learning process A recent World Bank study examined the actual costs of textbooks the scope for cost reduction the portion of a national budget countries allocate to teaching and learning materials TLMs and hurdles in the way of making textbooks available to student Some interesting findings from the study The availability of affordable textbooks to all students could be dramatically improved by devoting an estimated 3 to 4 percent of the primary education budget and 6 to 7 percent of the secondary education budget The production process methods copyright length of print runs effective procurement practices rather than the production costs

should be the target of cost saving strategies The increased integration of ICTs into education in SSA can provide important opportunities for promoting availability of electronic TLMs but electronic TLMs are not a substitute for printed TLMs including textbooks The Strong State and Curriculum Reform Leonel Lim,Michael W. Apple,2016-04-20 As Asian education systems increasingly take on a stronger presence on the global educational landscape of special interest is an understanding of the ways in which many of these states direct their schools towards higher achievement What is missing however are accounts that take seriously the particular construction of the strong developmental state witnessed across many Asian societies and that seek to understand the politics and possibilities of curriculum change vis a vis precisely the dominance of such a state By engaging in analyses based on some of the best current social and cultural theories and by illuminating the interactions among various state and non state pedagogic agents the chapters in this volume account for the complex post colonial historical and cultural consciousnesses that many Asian states and societies experience At a time when much of the educational politics in Asia remains in a state of transition and as many of these states seek out through the curriculum new forms of social control and novel bases of political legitimacy such a volume offers enduring insights into the real if not also always relative autonomy that schools and communities maintain in countering the hegemonic presence of strong states **Oxford Textbook of Medical Education** Kieran Walsh,2016 Providing a comprehensive and evidence based reference guide for those who have a strong and scholarly interest in medical education the Oxford Textbook of Medical Education contains everything the medical educator needs to know in order to deliver the knowledge skills and behaviour that doctors need The book explicitly states what constitutes best practice and gives an account of the evidence base that corroborates this Describing the theoretical educational principles that lay the foundations of best practice in medical education the book gives readers a through grounding in all aspects of this discipline Contributors to this book come from a variety of different backgrounds disciplines and continents producing a book that is truly original and international
