Physical Sciences ,2013 A Program for the Solution of a Class of Geometric-analogy Intelligence-test

Questions Thomas G. Evans,1964 The novel organization of the program in terms of figure descriptions which are analyzed to find transformation rules and rule descriptions which are analyzed to find common generalizations of pairs of transformation rules has implications for the design of problem solving programs and for machine learning These implications are discussed at some length and suggestions are made for work on pattern recognition and learning techniques based on ideas developed in the course of the present investigation **The Chemical News and Journal of Physical**
