15 University Intake In Kenya:

Multicampus University Systems Ishmael I. Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support universities in African countries are now turning towards a multicampus system strategy As African governments have adopted neoliberal education policies that place premium on entrepreneurialism profit making privatization and markets as drivers of university development a reshaping of the academic work and organizational framework have taken place However little is known about the impact of this paradigm shift on access quality and governance in higher education This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa It analyzes the paradox surrounding the performance of multicampus university systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities **Kenya National Assembly Official Record (Hansard)** ,1994-07-20 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya **Kenya National Assembly Official Record (Hansard)** ,1994-07-20 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya **Kenya National Assembly Official Record (Hansard)** ,1991-07-02 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya **Thus Until** Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum

experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style **Kenya**

Ng'ethe,George Subotzky,George Afeti,2008-01-01 This title explores an area of tertiary education that is currently understudied this is the extent and nature of differentiation and articulation in African tertiary education systems The overall finding is that the binary system is dominant characterised by universities and polytechnics as distinct types of institutions Differentiation is clearly evident in Africa However though varied in nature and extent the differentiation is mostly horizontal as opposed to vertical Articulation on the other hand seems to be in its infancy as some universities in their admission requirements d **Kenya's Secondary Schools Network** ,1992 *Kenya's Primary and Secondary Schools Network*
