and Waste in Lean Construction Fidelis A. Emuze,Tarcisio A. Saurin,2015-11-06 Non value adding activities are otherwise known as waste in the lean construction lexicon The aim of this collection is to build a common understanding of the role and contribution of value adding activities in achieving stipulated objectives and continuous improvement in construction projects and to contrast this with waste Although the lean approach to construction projects has been widely covered this is the first book that explicitly provides the link between value and waste in the Architecture Engineering and Construction AEC sector This internationally researched collection seeks to create a paradigm shift which will shape work processes and future

directions for how value is conceptualized and operationalized in both the project management and business aspects of construction. The readers will gain an understanding of the value adding paradigm in construction. How to make value supporting decisions. Waste identification and control in practice. With contributions from South Africa, Brazil, Norway and the USA, the implications of this book are globally relevant. This is essential reading for all higher level students of construction management and economics and all professionals interested in value management.

English Ministry Crisis in Chinese Canadian Churches Matthew Richard Sheldon Todd, 2015-03-26. In this book Dr Matthew Todd looks into the anecdotal reporting of high numbers of Canadian born Chinese leaving Western Canadian Chinese churches, what is termed the silent exodus. Some of the fastest growing Canadian churches are Chinese, yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries. This book recommends solutions towards the retention of Canadian born Chinese adults in Chinese bicultural churches through empowerment. To address retention, the key factors that contribute to a silent exodus are established through qualitative research with participants of diverse church affiliations. Todd examines various models and proposed solutions the Chinese church has used to retain its English speaking congregants and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton. Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations. He anticipates that this will permit transformational leadership practices that contribute to shalom, community transformation and lasting congregations.

The Road Forward Carla Bailo, Terry Barclay, 2021-04-22. Carla Bailo, CEO of the Center for Automotive Research and Terry Barclay, CEO of Inforum, bring together over 70 of the most influential women in the automotive industry to share their insight and advice. As with their first book, *The Road to the Top*, Bailo and Barclay interview women in positions of leadership throughout the industry, from suppliers to OEMs and academia. *The Road Forward* provides insight and advice to all professionals on the impact of the COVID pandemic by sharing their thoughts of the road ahead and what changes they have experienced professionally, personally and socially. In addition, the leaders discuss resilience, professional network maintenance and growth, personal growth, diversity and inclusion, and sustainability.

Lemon-Aid: New Cars and Trucks 2012 Phil Edmonston, 2011-01-01. Phil Edmonston, Canada's automotive Dr. Phil, pulls no punches. He says there's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all new guide, he says Audis are beautiful to behold but hell to own, biodegradable transmissions, rodent snack wiring, and mind boggling depreciation. Many 2011-12 automobiles have chin to chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car
