Borrás, Jennifer C. Franco, Researcher Jennifer C Franco, 2025 Access to land in all its multiple meanings is necessarily diverse complex and contentious and facilitating and maintaining such access constitutes a mosaic of social relations and institutional instruments rather than the minimalist and simplistic reduction of land to land property that in turn tends to be interpreted always as individual private property The Oxford Handbook of Land Politics offers heterodox analytical tools to help the reader make sense of the complexity of the politics of land *Art and Postcapitalism* Dave Beech, 2019-10-20 Artistic labour was exemplary for Utopian Socialist theories of attractive labour and Marxist theories of nonalienated labour but the rise of the anti work movement and current theories of fully automated luxury communism have seen art topple from its privileged place within the left s political imaginary as the artist has been reconceived as a prototype of the precarious 24 7 worker Art and Postcapitalism argues that art remains essential for thinking about the intersection of labour capitalism and postcapitalism not insofar as it merges work and pleasure but as an example of noncapitalist production Reassessing the contemporary politics of work by revisiting debates about art technology and in the nineteenth and twentieth century Dave Beech

Warmonger Jeremy Kuzmarov, 2023-12-01 During the 2016 presidential election many younger voters repudiated Hillary Clinton because of her husband s support for mass incarceration banking deregulation and free trade agreements that led many U S jobs to be shipped overseas Warmonger How Clinton s Malign Foreign Policy Launched the Trajectory from Bush II to Biden shows that Clinton s foreign policy was just as bad as his domestic policy Cultivating an image as a former anti Vietnam War activist to win over the aging hippie set in his early years as president Clinton bombed six countries and by the end of his first term had committed U S troops to 25 separate military operations compared to 17 in Ronald Reagan s two terms Clinton further expanded America s covert empire of overseas surveillance outposts and spying and increased the budget for intelligence spending and the National Endowment for Democracy NED a CIA offshoot which promoted regime change in foreign nations The latter was not surprising because according to CIA operative Cord Meyer Jr Clinton had been recruited into the CIA while a Rhodes Scholar at Oxford and as Governor of Arkansas in the 1980s he had allowed clandestine arms and drug flights to Nicaraguan counter revolutionaries Contras backed by the CIA to be taken from Mena Airport in the western part of the state Rather than being a time of tranquility when the U S failed to pay attention to the gathering storm of terrorism as New York Times columnist David Brooks frames it the Clinton presidency saw rising tensions among the U S China and Russia because of Clinton s malign foreign policies and U S complicity in terrorist acts In so many ways Clinton s presidency set the groundwork for the disasters that were to follow under Bush II Obama Trump and Biden It was Clinton building off of Reagan

who first waged a War on Terror ridden with double standards one that adopted terror tactics including extraordinary rendition bombing and the use of drones It was Clinton who cried wolf about human rights abuses and the need to protect beleaguered peoples from genocide to justify military intervention in a post Cold War age And it was Clinton s administration that pressed for regime change in Iraq and raised public alarm about the mythic WMDs all while relying on fancy new military technologies and private military contractors to distance US shady military interventions from the public to limit dissent
