The Law of Armed Conflict Gary D. Solis, 2021-10-21 This book introduces students to the essential questions of the law of armed conflict and international humanitarian law

Journal of the House of Representatives of the United States United States. Congress. House, 2008 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of secrecy was afterwards taken off by the order of the House

Beyond Polarized American Democracy Michael Haas, 2023-08-11 Civil war in the United States is now a mainstream topic due to apparent signs of ongoing planning This book reveals why in several ways First four major ideological drivers of possible conflict are identified Next ten arenas of ongoing nonviolent civil war are traced as increasingly for micro level violence Then several dozen alternative scenarios are traced to explain how civil war could break out very soon Finally measures are delineated about how the country might prevent calamity Anarchists Christian Nationalists Libertarians and Triumphalists are determined to impose their views on the diverse nation and reduce opponents to second class status They demonstrate their blatant determination through nonviolent political contests involving conspiracy theories cultural differences verbal contestation anti elitism racism well armed groups with nationwide membership political demonization media disinformation Congressional hyperpartisanship reducing constitutional rights and legal fights by some states against others But often they go beyond and commit violence out of sheer enjoyment in making opponents suffer Beyond Polarized American Democracy From Mass Society to Coups and Civil War suggests remedies for each of ten types of nonviolent civil war but most are long term solutions that cannot deal with an imminent threat Accordingly the book reviews governmental and military resources as well as efforts to counteract the ideological contest through political innovations The analysis flows from the sociological Mass Society Paradigm which argues that democracy's survival depends upon the ability of civil society to relay the needs of the people to institutions of government and provide effective pressure for corrective action As developed to explain the rise of Nazism in Germany the analysis applies lessons from studies of coups and civil wars to identify how to prevent the loss of democracy in the United States

Performing Sovereign Aspirations Bart Klem, 2024-11-21 Challenges state centric interpretations of insurgent politics by offering a performative perspective on Sri Lanka's Tamil nationalist movement

Amne adverso Laurent Waelkens, 2015-10-27 Introduction to the history of Roman law and its institutions Throughout its

history Europe has been influenced by Roman culture a culture with a strong sense of society and highly legal minded Hence Roman law is of major importance in European thinking It was the first subject to be taught at university and it remains tightly interwoven with all layers of European civilisation This book provides an introduction to the history of Roman law and its institutions as they developed from Antiquity until the nineteenth century Concepts such as fundamental rights and freedoms lawsuits family law rights in rem and obligations have their origins in classical Antiquity and were developed further throughout European history The historical processing of our Roman legal heritage is treated from the perspective of comparative legal history The book is written for undergraduate law students but is also relevant for scholars from other disciplines
