Jonathan Fisher, Nina Wilén

2015 South African Army:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

South Africa and United Nations Peacekeeping Offensive Operations Garcia, Antonio, 2018-08-16 The creation of the Force Intervention Brigade (FIB) as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo (MONUSCO) tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions. What was more significant was that sub-Saharan national leaders were instrumental in the creation of the FIB. South Africa, Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN. With the legacy of an African Renaissance and its role in the conception of the FIB, South Africa remains a critical player in international peace and security in sub-Saharan Africa and therefore holds a key strategic role in achieving the FIB's objectives. This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts. The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations. In this undertaking, a layer of military and Clausewitzian theory is added to offensive peacekeeping operations. Furthermore, there are sections on operational constructs, capstone and operating concepts, doctrine and structural elements as well as a section on mine action. This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges.

Contemporary Military Geosciences in South Africa Hennie Smit, 2019-03-31 *Contemporary Military Geosciences in South Africa* presents the reader with chapters celebrating the scope, reach and impact of themes researched by military geoscientists. The first topics under investigation range from battlefield archaeology and battlefield tourism to military environmental management and the development of a unique South African

spatial decision support system for military integrated environmental management This is followed by an in depth look at contemporary maritime factors at play in South Africa The book is concluded by an analysis of the issues surrounding military mobility software and terrain negotiability as well as a comprehensive examination of how geographic factors influence the distribution of natural radionuclides in a military area Researching the Military Helena Carreiras,Celso Castro,Sabina Frederic,2016-03-02 Researching the Military focuses on the experiences of researchers who study the military around the world It explores the historical social institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy More than merely analyzing research experiences yet necessarily including them it is also about the experiences of researchers their position with regard to the object of their studies the institutional context where they work and the way their research impacts the academic and policy making fields in the respective countries The common theme to the various chapters is reflexivity a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface By collecting diverse experiences of researchers from across the world this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena This book will be of much interest to students of military studies research methods sociology social anthropology and security studies in general

Handbook of the Sociology of the Military Giuseppe Caforio,Marina Nuciari,2018-05-19 This new edition of the volume is presented on the wave of the success which had its first edition 2003 It is entirely updated to the current situation of the disciplines covered and expanded with particular regard to the new missions that have become the main challenge for the armed forces in these first decades of the new millennium with new insights to technological development toward so called cyborg warriors new forms of leadership and changes in soldier s identity and organisational culture It is compiled of documents coming from various researchers at universities around the world as well as military officers devoted to the sector of study Covered in this volume is a historical excursus of studies prior to contemporary research interpretive models and theoretical approaches developed specifically for this topic civic military relations including issues surrounding democratic control of the armed forces military culture professional training conditions and problems of minorities in the armed forces an examination of the structural change within the military over the years including new duties and functions following the Cold War *Reforming Civil-Military Relations in New Democracies* Aurel Croissant,David Kuehn,2017-03-20 This book addresses the challenge of reforming defense and military policy making in newly democratized nations By tracing the development of civil military relations in various new democracies from a comparative perspective it links two bodies of scholarship that thus far have remained largely separate the study of emerging or failed civilian control over armed forces on the one hand and work on the roots and causes of military effectiveness to guarantee the protection and security of citizens on the other The empirical and theoretical findings presented here will appeal to scholars of civil military relations

democratization and security issues as well as to defense policy makers *African Peacekeeping* Jonathan Fisher, Nina Wilén, 2022-02-03 An examination of how peacekeeping is woven into national regional and international politics in Africa and its consequences *Guns & Roses: Comparative Civil-Military Relations in the Changing Security Environment* Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04 This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate drawing on examples from the Asian Pacific African Middle Eastern European and South American regions The book is interdisciplinary and covers wide ranging issues relating to civil military relations democratization regional security ethnicity peace building and peace keeping civilian oversight internal repression gender regime change and civil society **Global Approaches to the Holocaust** Mark Celinscak, Mehnaz Afridi, 2025-11 In this volume contributors examine the Holocaust from a global perspective presenting a diverse set of Jewish and non Jewish voices that add to the subject s historical and memorial reach

U.S. Security Cooperation with Africa Robert J. Griffiths, 2016-04-14 As Africa s strategic importance has increased over the past decade and a half United States security cooperation with the continent has expanded The most visible dimension of this increased engagement was the establishment of the U S Military Command for Africa AFRICOM Some critics are skeptical of AFRICOM s purpose and see the militarization of U S Africa policy while others question its effectiveness Recognizing the link between development and security AFRICOM represents a departure from the traditional organization of military commands because of its holistic approach and the involvement of the Department of State as well as other U S government stakeholders Nevertheless AFRICOM s effort to combine security and development faces formidable conceptual and operational challenges in trying to ensure both American and African security interests The human security perspective s emphasis on issues that go beyond traditional state centered security to include protecting individuals from threats of hunger disease crime environmental degradation and political repression as well as focusing on social and economic justice is an important component of security policy At the same time the threat of violent extremism heavily influences U S security cooperation with Africa In this examination of the context of U S African security relations Robert J Griffiths outlines the nature of the African state traces the contours of African conflict surveys the post independence history of U S involvement on the continent and discusses policy organization and implementation and the impact of U S experiences in Iraq and Afghanistan on the U S Africa security relationship Africa s continuing geostrategic significance the influence of China and other emerging markets in the region and America s other global engagements especially in light of U S fiscal realities demonstrate the complexity of U S African security cooperation **Contemporary Issues in South African Military Psychology** Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 Contemporary Issues in South African Military Psychology is a well timed extremely thought provoking imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields specifically in the military field and

context This is specifically of importance as military psychology is a behavioural science that combines theory and practical application Prof Karel Stanz University of Pretoria **South Africans versus Rommel** David Brock Katz, 2017-11-15 After bitter debate South Africa a dominion of the British Empire at the time declared war on Germany five days after the invasion of Poland in September 1939 Thrust by the British into the campaign against Erwin Rommel's German Afrika Korps in North Africa the South Africans fought a see saw war of defeats followed by successes culminating in the Battle of El Alamein where South African soldiers made a significant contribution to halting the Desert Fox's advance into Egypt This is the story of an army committed somewhat reluctantly to a war it didn't fully support ill prepared for the battles it was tasked with fighting and sent into action on the orders of its senior alliance partner At its heart however this is the story of men at war

Special Operations Success James D. Kiras, 2024-10-24 Special Operations Success establishes a new benchmark in military theory in this deeply analytic and innovative work It answers several pressing questions How successful have American special operations been over the past quarter century Are special forces fated to cycles of expansion and misuse Will special forces invariably exceed the authorities granted to them because of they are Is a general theory of special operations feasible given the range of activities and conditions that fall under the category Kiras work is based on two decades of practical teaching and consulting experience within different special operations communities and its analysis and conclusions are designed to inform practitioners policymakers educators and the general public The book develops a framework in the form of a theory comprising capabilities and control for the comprehensively evaluating special operations success and is divided into three parts Part I lays the foundation for a general theory of special operations Part II explores the two component parts of theory capabilities and control and Part III uses various aspects of the theory depending on available information to assess the success of special operations over a twenty year period in the United Kingdom South Africa and the United States **The History of Geophysics in Southern Africa** Johan H de Beer, 2016-01-25 Geophysics is

a comparatively young science which only evolved as a distinct discipline during the 19th century However its phenomena like earthquakes tsunamis volcanic eruptions and lightning had been objects of fear curiosity and speculation since ancient times In this book Johan de Beer and his research team reveal that geophysical activity in South Africa can be traced back to as early as 1488 This is a truly astonishing revelation which deserves to be firmly entrenched as part of the country's proud history The book also discusses the history and formation of South African geophysical institutions that made a huge and seldom acknowledged contribution to the technological development of southern Africa **A Far-Away War** Ian

Liebenberg, 2016-01-31 South Africa's armed forces invaded Angola in 1975 setting off a war that had consequences for the whole region that are still felt today A Far Away War contributes to a wider understanding of this war in Angola and Namibia The book does not only look at the war from an e olde South African Defence Force perspective but also gives a voice to participants e on the other sidee emphasising the role of the Cubans and Russians This focus is supplemented by the

inclusion of many never before published photographs from Cuban and Russian archives and a comprehensive bibliography

The Politics of Nature and Science in Southern Africa Maano Ramutsindela, Giorgio Miescher, Melanie Boehi, 2016-09-12 This book brings together recent and ongoing empirical studies to examine two relational kinds of politics namely the politics of nature i.e. how nature conservation projects are sites on which power relations play out and the politics of the scientific study of nature These are discussed in their historical and present contexts and at specific sites on which particular human environment relations are forged or contested This spatio temporal juxtaposition is lacking in current research on political ecology while the politics of science appears marginal to critical scholarship on social nature Specifically the book examines power relations in nature related activities demonstrates conditions under which nature and science are politicised and also accounts for political interests and struggles over nature in its various forms The ecological socio political and economic dimensions of nature cannot be ignored when dealing with present day environmental issues Nature conservation regulations are concerned with the management of flora and fauna as much as with humans Various chapters in the book pay attention to the ways in which nature science and politics are interrelated and also co constitutive of each other They highlight that power relations are naturalised through science and science related institutions and projects such as museums botanical gardens wetlands parks and nature reserves

Defence Diplomacy and National Security Strategy Ian Liebenberg, Dirk Kruijt, Shrikant Paranjpe, 2020-04-20 The post cold war era presented security challenges that at one level are a continuation of the cold war era at another level these phenomena manifested in new forms Whether the issues of economics and trade transfer of technologies challenges of intervention or humanitarian crisis the countries of the South previously pejoratively labelled Third World or developing countries have continued to address these challenges within the framework of their capabilities and concerns The volume explores defence diplomacies national security challenges and strategies dynamics of diplomatic manoeuvres and strategic resource management of Latin American southern African and Asian countries

Violent Non-State Actors in Africa Caroline Varin, Dauda Abubakar, 2017-04-24 This book explores the rise and impact of violent non state actors in contemporary Africa and the implications for the sovereignty and security of African states Each chapter tackles a unique angle on violent organizations on the continent with the view of highlighting the conditions that lead to the rise and radicalization of these groups The chapters further examine the ways in which governments have responded to the challenge and the national regional and international strategies that they have adopted as a result Chapter contributors to this volume examine the emergence of Islamist terrorists in Nigeria Mali and Libya rebels in DR Congo Central African Republic Ethiopia and Rwanda and warlords and pirates in Somalia Uganda and Sierra Leone

New Directions in African Military History Timothy J. Stapleton, 2025-06-02 New Directions in African Military History takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the

well established genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History *Child Soldiers* Dr. U C Jha, 2018-01-01 As many as fifty non state armed groups NSAGs in countries such as Afghanistan Colombia the Democratic Republic of Congo India Iraq Israel Palestine Libya Mali Pakistan the Philippines Somalia South Sudan Syria Thailand and Yemen are engaged in the recruitment and use of children in armed conflict In Somalia South Sudan Syria and Yemen the situation continues to be perilous with many hundreds of children recruited used killed and maimed Children have been used by the NSAGs as executioners and suicide bombers By an estimate there are 300 000 350 000 child soldiers worldwide and the alarming trend continues to grow According to the United Nations there has been a fivefold increase in the number of children recruited in a few ongoing armed conflicts This book gives an up to date and comprehensive analysis of the recruitment and use of child soldiers worldwide and examines the inadequacy of international institutions and laws in protecting children It is an invaluable resource for anyone interested or working in the field of protecting children teachers students lawyers government officials military and police personnel researchers and human rights activists
