College Placement Council, 1982 *Major Decisions* Laurie Grobman, E. Michele Ramsey, 2020-03-13 A practical how to guide for students and a powerful reminder of the value of a humanities education In recent decades the humanities have struggled to justify themselves in the American university The costs of attending a four year college have exploded resulting in intense pressure on students to major in STEM science technology engineering and mathematics business and other pre professional or practical majors that supposedly transmit more marketable skills than can be acquired from the humanities

But as Laurie Grobman and E Michele Ramsey argue this vision of humanities majors idly pondering the meaning of life for four years is inaccurate Major Decisions demonstrates how choosing a major in the humanities is a worthwhile investment in a global economy that is shifting in the direction of college graduates who think broadly critically and ethically Indeed the core skills and knowledge imparted by an education in the humanities including facility with written and verbal communication collaboration problem solving technological literacy ethics leadership and an understanding of the human impacts of globalization are immensely useful to employers across a variety of sectors Major Decisions serves as a deeply informative guide to students and parents and provides a powerful reminder to employers and university administrators of the true value of an education in the humanities

Cities in the Urban Age Robert A. Beauregard, 2018-03-19 We live in a self proclaimed Urban Age where we celebrate the city as the source of economic prosperity a nurturer of social and cultural diversity and a place primed for democracy We proclaim the city as the fertile ground from which progress will arise Without cities we tell ourselves human civilization would falter and decay In Cities in the Urban Age Robert A Beauregard argues that this line of thinking is not only hyperbolic it is too celebratory by half For Beauregard the city is a cauldron for four haunting contradictions First cities are equally defined by both their wealth and their poverty Second cities are simultaneously environmentally destructive and yet promise sustainability Third cities encourage rule by political machines and oligarchies even as they are essentially democratic and at least nominally open to all And fourth city life promotes tolerance among disparate groups even as the friction among them often erupts into violence Beauregard offers no simple solutions or proposed remedies for these contradictions indeed he doesn't necessarily hold that they need to be resolved since they are generative of city life Without these four tensions cities wouldn't be cities Rather Beauregard argues that only by recognizing these ambiguities and contradictions can we even begin to understand our moral obligations as well as the clearest paths toward equality justice and peace in urban settings

Good Work If You Can Get It Jason Brennan, 2020-05-05 What does it really take to get a job in academia Do you want to go to graduate school Then you're in good company nearly 80 000 students will begin pursuing a PhD this year alone But while almost all new PhD students say they want to work in academia most are destined for something else The hard truth is that half will quit or fail to get their degree and most graduates will never find a full time academic job In Good Work If You Can Get It Jason Brennan combines personal experience with the latest higher education research to help you understand what graduate school and the academy are really like This candid pull no punches book answers questions big and small including Should I go to graduate school and what will I do once I get there How much does a PhD cost and should I pay for one What does it take to succeed in graduate school What kinds of jobs are there after grad school and who gets them What happens to the people who never get full time professorships What does it take to be productive to publish continually at a high level What does it take to teach many classes at once How does publish or perish work How much do professors get paid What do search committees look for and what turns them off How

do I know which journals and book publishers matter How do I balance work and life This realistic data driven look at university teaching and research will help make your graduate and postgraduate experience a success Good Work If You Can Get It is the guidebook that anyone considering graduate school already in grad school starting as a new professor or advising graduate students needs Read it and you will come away ready to hit the ground running [The Massachusetts General Hospital Guide to Learning Disabilities](#) H.
