Technology and Information 2015 (ICESTI 2015) Felix Pasila,Yusak Tanoto,Resmana Lim,Murtiyanto Santoso,Nemuel Daniel Pah,2016-02-10 This book includes the original peer reviewed research papers from the 2nd International Conference on Electrical Systems Technology and Information ICESTI 2015 held in September 2015 at Patra Jasa Resort Villas Bali Indonesia Topics covered include Mechatronics and Robotics Circuits and Systems Power and Energy Systems Control and Industrial Automation and Information Theory It explores emerging technologies and their application in a broad range of engineering disciplines including communication technologies and smart grids It examines hybrid intelligent and knowledge based control embedded systems and machine learning It also presents emerging research and recent application in green

energy system and storage It discusses the role of electrical engineering in biomedical industrial and mechanical systems as well as multimedia systems and applications computer vision and image and signal processing The primary objective of this series is to provide references for dissemination and discussion of the above topics This volume is unique in that it includes work related to hybrid intelligent control and its applications Engineers and researchers as well as teachers from academia and professionals in industry and government will gain valuable insights into interdisciplinary solutions in the field of emerging electrical technologies and its applications

Solar Powered Charging Infrastructure for Electric Vehicles Larry E. Erickson, Jessica Robinson, Gary Brase, Jackson Cutsor, 2016-10-14 The Paris Agreement on Climate Change adopted on December 12 2015 is a voluntary effort to reduce greenhouse gas emissions In order to reach the goals of this agreement there is a need to generate electricity without greenhouse gas emissions and to electrify transportation An infrastructure of SPCSs can help accomplish both of these transitions Globally expenditures associated with the generation transmission and use of electricity are more than one trillion dollars per year Annual transportation expenditures are also more than one trillion dollars per year Almost everyone will be impacted by these changes in transportation solar power generation and smart grid developments The benefits of reducing greenhouse gas emissions will differ with location but all will be impacted This book is about the benefits associated with adding solar panels to parking lots to generate electricity reduce greenhouse gas emissions and provide shade and shelter from rain and snow The electricity can flow into the power grid or be used to charge electric vehicles EVs Solar powered charging stations SPCSs are already in many parking lots in many countries of the world The prices of solar panels have decreased recently and about 30% of the new U S electrical generating capacity in 2015 was from solar energy More than one million EVs are in service in 2016 and there are significant benefits associated with a convenient charging infrastructure of SPCSs to support transportation with electric vehicles Solar Powered Charging Infrastructure for Electric Vehicles A Sustainable Development aims to share information on pathways from our present situation to a world with a more sustainable transportation system with EVs SPCSs a modernized smart power grid with energy storage reduced greenhouse gas emissions and better urban air quality Covering 200 million parking spaces with solar panels can generate about 1 4 of the electricity that was generated in 2014 in the United States Millions of EVs with 20 to 50 kWh of battery storage can help with the transition to wind and solar power generation through owners responding to time of use prices Written for all audiences high school and college teachers and students those in industry and government and those involved in community issues will benefit by learning more about the topics addressed in the book Those working with electrical power and transportation who will be in the middle of the transition will want to learn about all of the challenges and developments that are addressed here
