Educating in the Spirit Eric J. Kyle, 2019-05-16 This book is an attempt to address two struggles for theistic educators e g those who approach their educational vocation from a religious perspective whether they are working in secular or faith based institutions The first struggle is that while numerous guidelines on teaching excellence have been compiled the resulting checklists can contain more than a hundred criteria to consider This book therefore identifies the evidence based guidelines that are likely to have the highest impact on student achievement thereby empowering educators to focus their efforts in more substantial ways The second struggle is related to the lack of resources which can help educators to view and approach their vocation from a theistic perspective While there are texts that discuss the relationship of spirituality and or theology to education few to date have sought to bring evidence based educational literature into dialogue with the western Christian tradition and thereby develop a bottom up theology of education This book addresses this historical and theological gap Overall this book is therefore intended to not only provide theistic educators with high impact guidelines that can significantly improve the quality of education in their school systems but it also strives to do so from a thoroughly theistic perspective

Evaluation of FAO's country programme in Sierra Leone 2012-2019 Food and Agriculture Organization of the United Nations , The agriculture sector in Sierra Leone accounts for 60 percent of GDP and 58 percent of total employment More than 58 percent of the country s population live in rural areas and 86 1 percent of this population are engaged in smallholder subsistence agricultural production Ten years of civil conflict and the Ebola epidemic in 2014 negatively affected food security and the country s overall socio economic situation The country is particularly vulnerable to extreme events such as food chain crises and natural hazards which have a direct impact on food security and livelihoods This evaluation aims to identify lessons learned and provide strategic recommendations on how FAO programmes can be better oriented in Sierra Leone FAO s overall contribution to developmental challenges was assessed in the priority areas defined in the CPFs covering 2012 16 and 2017 19 The evaluation comprised an examination of associated outcome areas related to support to smallholder commercialization natural resources management and effective response to disasters and increasing social productivity and resilience The review also evaluated crosscutting issues including gender equality and women s empowerment climate resilience nutrition capacity development and youth employment The evaluation used different methods to collect the views of the beneficiaries and other stakeholders such as structured focus group discussions structured key informant interviews direct observation and workshops The fieldwork took place with actors from projects across five districts Bo Bombali Kenema Kono and Port Loko The evaluation found evidence of significant and sustainable results in a range of areas of FAO s activities including policy related work from adoption of legislation to policy influence piloting of approaches and standards and regulatory frameworks Likewise results leading to livelihoods improvements empowerment and adoption of more sustainable organizational practices technologies and skills were found Nevertheless the programme failed to aggregate activities and interventions in a programmatic and coherent portfolio FAOs capacity to deliver sustainable and consistent results with strong partnerships and complementary action was often undermined by lack of or weak systems and functions

FAO should use the development of the new CPF as a way to re design its strategic footprint in the country and reach its full potential despite the limiting factors To do this FAO could consider adopting an area based approach implementing a programmatic multi stakeholder and cross sectoral adaptive approach based on regions districts
