

EARTHQUAKE

An earthquake happens when the ground shakes. It's like a big wave beneath our feet. Buildings can shake and sometimes fall. People feel scared during earthquakes. They can happen suddenly, without warning. Earthquakes can cause a lot of damage. Sometimes, they make the ground crack open. People need to be careful during earthquakes. They should find a safe place to hide. After an earthquake, people help each other and fix what's broken. Scientists study earthquakes to understand them better and to keep people safe. Earthquakes remind us of the power of nature.
