Describing Motion

Directions: Use the words from the word bank below to complete answers #1-9.

accelerating	distance	average speed	position	direction
velocity	displacement	reference point	finish line	

1. Motion is a change in position.
2. To describe motion, you must have a reference point.
3. For a runner in a 100m dash, a good reference point would be the finish line.
4. To locate an object, you need to know its distance and direction from a reference point.
5. How far an object travels is its distance.
6. The direction and the distance between the final position and the starting position is called the displacement.
7. When you go for a bike ride, your total distance divided by the total time of your ride is the average speed of your ride.
8. A change in velocity can be due to a change in speed, direction, or both.
9. An object is accelerating if it is speeding up, slowing down, or turning.

The underlined words in the sentences below make the sentences FALSE. The words to make the sentences true are in the word bank below. Write the words that would make the sentences TRUE on the lines provided.

average speed	velocity	less than	reference	is accelerating	changing
---------------	----------	-----------	-----------	-----------------	----------

- changing 10. An object moves around a circular track at 2 m/s. It has a constant velocity.
- less than 11. If you climb a winding road up a mountain, your displacement is the same as your distance.
- velocity 12. Acceleration is the rate of change of speed divided by the amount of time over which the change occurs.
- is accelerating 13. A moving merry-go-round horse is not accelerating.
- reference 14. To describe the motion of an object, you must have a reference point.
- average speed 15. Velocity equals the total distance divided by the total time.
