

GAAP

Generally Accepted
Accounting Principles

VS

NON-GAAP

GAAP is a set of accounting standards followed by most U.S. businesses, nonprofit organizations, and state and local governments.

- Created and administered by the Financial Accounting Standards Board (FASB) and governed by the U.S. Securities and Exchange Commission (SEC)
- The industry standard of measuring a company's financial health

Companies use non-GAAP measurements to make their net income look better, typically by eliminating nonrecurring charges and other amounts they deem not indicative of their ongoing performance.

- No direct creators for the standard, though still governed by the SEC
- One of the most common forms of non-GAAP measurements is EBITDA (earnings before interest, taxes, depreciation, and amortization)
