Pardo,Maria das Gracas Volpe Nunes,2014-09-26 This book constitutes the refereed proceedings of the 11th International Workshop on Computational Processing of the Portuguese Language PROPOR 2014 held in Sao Carlos Brazil in October 2014 The 14 full papers and 19 short papers presented in this volume were carefully reviewed and selected from 63 submissions The papers are organized in topical sections named speech language processing and applications linguistic description syntax and parsing ontologies semantics and lexicography corpora and language resources and natural language processing tools and applications *Global Perspectives on Decolonizing Postgraduate Education* Gumbo, Mishack Thiza,Gaotlhobogwe, Michael,Pedzisai, Constantino,Jojo, Zingiswa Mybert Monica,Knaus, Christopher B.,2024-05-13 A deep seated issue persists in postgraduate education one that threatens the relevance of academia in our diverse and evolving world The problem at hand is the Western centric nature of postgraduate education where research paradigms methodologies and theoretical frameworks overwhelmingly reflect a Western worldview This rigid adherence to Western ideologies has left indigenous communities on the periphery of academic discourse denying them the opportunity to engage with their knowledge systems and practices

Despite the richness and prevalence of indigenous knowledge the existing educational structure remains a barrier to their inclusion This disconnect is not only an academic concern but also a societal one as it hinders sustainable development and stifles the voices of indigenous scholars and students Global Perspectives on Decolonizing Postgraduate Education serves as a compelling solution to the problem at hand It offers a comprehensive roadmap to decolonize postgraduate education infusing it with indigenous approaches paradigms theories and methods Through critical examination and practical strategies this book empowers academics curriculum designers and postgraduate students to embark on a transformative journey

Law, Narrative and Masterplot Chris Bevan,David Gurnham,2025-06-13 The book brings together a range of socio legal and law and humanities scholars to elaborate and explore the idea of the legal masterplot There is a class of narrative sometimes referred to as masterplot or metanarrative that stands above the plethora of other stories plots and myths that may be found in law This book focuses on the masterplot concept as providing a productive yet largely under explored way of seeing understanding and responding to legal controversies and socio legal problems Masterplots may be understood as those prevalent and enduring ideas and narratives that form the basis of expectations assumptions stereotypes and prejudices In legal contexts masterplots give shape and significance to particular experiences or issues In aligning with them legal arguments judgments and reforms gain acceptability and can be presented as authoritative proportionate and legitimate Reflecting from different legal perspectives and subdisciplines on the masterplots at play in our current legal frameworks this collection illuminates the often hidden ways in which law functions This book will appeal to students and scholars of socio legal studies sociology social policy and humanities approaches to law Trends in Magnetism:
