Abandoned in the Heartland Jennifer Hamer, 2011-09-01 Urban poverty along with all of its poignant manifestations is moving from city centers to working class and industrial suburbs in contemporary America Nowhere is this more evident than in East St Louis Illinois Once a thriving manufacturing and transportation center East St Louis is now known for its unemployment crime and collapsing infrastructure Abandoned in the Heartland takes us into the lives of East St Louis s predominantly African American residents to find out what has happened since industry abandoned the city and jobs quality schools and city services disappeared leaving people isolated and imperiled Jennifer Hamer introduces men who search for meaning and opportunity in dead end jobs women who often take on caretaking responsibilities until well into old age and parents who have the impossible task of protecting their children in this dangerous and literally toxic environment Illustrated with historical and contemporary photographs showing how the city has changed over time this book full of stories of courage and fortitude offers a powerful vision of the transformed circumstances of life in one American suburb

Grace and Grief Paula McVay, 2022-12-06 Back Page What do you say to someone who has just lost the love of their life How do you act around them How long do you try to comfort them What if they seem to reject your attempts to console them If you are the person who lost a loved one how do you grieve and for how long How do you handle those waves of depression How do you relate to your children Why can t your adult children and friends understand Where do you go for help How long does it take to travel this journey of grief The author helps to answer these and other questions as she tells stories of her own journey and the journeys of others This book is short practical and can be read in any order according to the needs of the reader The author begins by describing how she cared for her husband during his illness and gives helpful guideline for handling life for herself and her family not wanting to think about his coming death but knowing she must be realistic She tells of how her family and friends helped and sometimes hindered Practical suggestions are given at the end of each chapter with the author making sure that readers need not feel they must do everything at once or exactly like someone else has done Although she puts strong emphasis on God s grace and His word she makes it clear that professional help is sometimes needed Going places alone making financial decisions handling those special days facing more difficulties growing in confidence and ministering to others are just a few of the topics addressed The widow not only learns who she is but begins

to grasp who God is as He strengthens and guides her with his mercy and grace Paula wants readers to know that she truly grappled with when to write and which stories to tell She often cried out to God for discernment asking Am I being too vulnerable Do I really want people to know some of these experiences She was reminded how others could receive help through a scripture or particular story Readers will be thankful that she completed the book and find hope for their own journeys no matter the length or challenge Environmental Life Cycle Assessment of Goods and Services Chris T.

Hendrickson, Lester B. Lave, H. Scott Matthews, 2010-09-30 Environmental life cycle assessment is often thought of as cradle to grave and therefore as the most complete accounting of the environmental costs and benefits of a product or service However as anyone who has done an environmental life cycle assessment knows existing tools have many problems data is difficult to assemble and life cycle studies take months of effort A truly comprehensive analysis is prohibitive so analysts are often forced to simply ignore many facets of life cycle impacts But the focus on one aspect of a product or service can result in misleading indications if that aspect is benign while other aspects pollute or are otherwise unsustainable This book summarizes the EIO LCA method explains its use in relation to other life cycle assessment models and provides sample applications and extensions of the model into novel areas A final chapter explains the free easy to use software tool available on a companion website www.eiolca.net The software tool provides a wealth of data summarizing the current U S economy in 500 sectors with information on energy and materials use pollution and greenhouse gas discharges and other attributes like associated occupational deaths and injuries The joint project of twelve faculty members and over 20 students working together over the past ten years at the Green Design Institute of Carnegie Mellon University the EIO LCA has been applied to a wide range of products and services It will prove useful for research industry and in economics engineering or interdisciplinary classes in green design Federal Register , 2008-07-14 *Healing the Rage Within* Yuoranda

Walker, 2013-12-05 *Healing the Rage Within* is the true life story of Yuoranda Walker In her book she talks about the effects of being sexually abused and raped and how the rage that grew inside her almost destroyed her life A Handbook of Transport Economics André de Palma, Robin Lindsey, Emile Quinet, Roger Vickerman, 2011-01-01 This Handbook is a stellar compilation of up to date knowledge about the important topics in transport economics Authors include the very best in the field and they cover the most important topics for today s research and policy applications Individual chapters contain sound readable well referenced explanations of each topic s history and current status I cannot think of a better place to start for anyone wanting to become current in the field or in any of its parts Kenneth Small University of California Irvine US Bringing together insights and perspectives from close to 70 of the world s leading experts in the field this timely Handbook provides an up to date guide to the most recent and state of the art advances in transport economics The comprehensive coverage includes topics such as the relationship between transport and the spatial economy recent advances in travel demand analysis the external costs of transport investment appraisal pricing equity issues competition and regulation the role of

public private partnerships and the development of policy in local bus services rail air and maritime transport This Handbook is designed both for use on postgraduate and advanced undergraduate courses and as a reference for anyone working in the field It also complements the textbook Principles of Transport Economics
