Imperial Rome AD 193 to 284 Clifford Ando,2012-06-20

The Roman empire during the period framed by the accession of Septimus Severus in 193 and the rise of Diocletian in 284 has conventionally been regarded as one of crisis Between 235 and 284 at least eighteen men held the throne of the empire for an average of less than three years a reckoning which does not take into account all the relatives and lieutenants with whom those men shared power Compared to the century between the accession of Nerva and the death of Commodus this appears to be a period of near unintelligibility The middle of the century also witnessed catastrophic if temporary ruptures in the territorial integrity of the empire At slightly different times large portions of the eastern and western halves of the empire passed under the control of powers and principalities who assumed the mantle of Roman government and exercised meaningful and legitimate juridical political and military power over millions The success and longevity of those political formations reflected local responses to the collapse of Roman governmental power in the face of extraordinary pressure on its borders Even those regions that remained Roman were subjected to depredation and pillage by invading armies The Roman peace which had become in the last instance the justification for empire had been shattered In this pioneering history Clifford Ando describes and integrates the contrasting histories of different parts of the empire and assesses the impacts of administrative political and religious change *Antiquarian, Specialty, and Used Book Sellers* ,1997 Field & Stream ,1979-05 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations **Corpus of Mosaics from Egypt: Hellenistic and early Roman period** Wiktor Andrzej Daszewski,1985
