Select Committee on Small Business**

Air Pollution Experiments For 4th Graders:

A People's Curriculum for the Earth Bill Bigelow, Tim Swinehart, 2014-11-14 A People's Curriculum for the Earth is a collection of articles, role plays, simulations, stories, poems, and graphics to help breathe life into teaching about the environmental crisis. The book features some of the best articles from Rethinking Schools magazine alongside classroom friendly readings on climate change, energy, water, food, and pollution, as well as on people who are working to make things better. A People's Curriculum for the Earth has the breadth and depth of Rethinking Globalization: Teaching for Justice in an Unjust World, one of the most popular books we've published. At a time when it's becoming increasingly obvious that life on Earth is at risk, here is a resource that helps students see what's wrong and imagine solutions. Praise for A People's Curriculum for the Earth: To really confront the climate crisis, we need to think differently, build differently, and teach differently. A People's Curriculum for the Earth is an educator's toolkit for our times. Naomi Klein, author of The Shock Doctrine and This Changes Everything: Capitalism vs. the Climate. This volume is a marvelous example of justice in ALL facets of our lives: civil, social, educational, economic, and yes, environmental. Bravo to the Rethinking Schools team for pulling this collection together and making us think more holistically about what we mean when we talk about justice. Gloria Ladson Billings, Kellner Family Chair in Urban Education, University of Wisconsin-Madison. Bigelow and Swinehart have created a critical resource for today's young people about humanity's responsibility for the Earth. This book can engender the shift in perspective so needed at this point on the clock of the universe. Gregory Smith, Professor of Education, Lewis Clark College. Co-author with David Sobel of Place and Community-based Education in Schools.

Evaluation of the Voluntary National Tests, Year 2 National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on the Evaluation of the Voluntary National Tests, Year 2, 1999-11-17 In his 1997 State of the Union address, President Clinton announced a federal initiative to develop tests of 4th grade reading and 8th grade mathematics that could be administered on a voluntary basis by states and school districts beginning in spring 1999. The principal purpose of the Voluntary National Tests (VNT) is to provide parents and teachers with systematic and reliable information about the verbal and quantitative skills that students have achieved at two key points in their educational careers. The U.S. Department of Education anticipated that this information would serve as a catalyst for continued school improvement by focusing parental and community attention on achievement and by providing an additional tool to hold school systems accountable for their students' performance in relation to nationwide standards. Shortly after initial development work on the VNT, Congress transferred responsibility for VNT policies, direction, and guidelines from the department to the National Assessment Governing Board (NAGB), the governing body for the National Assessment of Educational Progress. Test development activities were to continue, but Congress prohibited pilot and field testing and operational use of the VNT pending further consideration. At the same time, Congress called on the National Research Council (NRC) to assess the VNT development.

activities Since the evaluation began the NRC has issued three reports on VNT development an interim and final report on the first year s work and an interim report earlier on this second year s work This final report includes the findings and recommendations from the interim report modified by new information and analysis and presents our overall conclusions and recommendations regarding the VNT *Environmental Health Perspectives* ,2007-08 **Evaluation of the Voluntary National Tests** National Research Council,Division of Behavioral and Social Sciences and Education,Board on Testing and Assessment,1998-08-31 In his 1997 State of the Union address President Clinton announced a federal initiative to develop tests of 4th grade reading and 8th grade mathematics that would provide reliable information about student performance at two key points in their educational careers According to the U S Department of Education the Voluntary National Tests VNT would create a catalyst for continued school improvement by focusing parental and community wide attention on achievement and would become new tools to hold school systems accountable for their students performance The National Assessment Governing Board NAGB has responsibility for development of the VNT Congress recognized that a testing program of the scale and magnitude of the VNT initiative raises many important technical questions and requires quality control throughout development and implementation In P L 105 78 Congress called on the National Research Council NRC to evaluate a series of technical issues pertaining to the validity of test items the validity of proposed links between the VNT and the National Assessment of Educational Progress NAEP plans for the accommodation and inclusion of students with disabilities and English language learners plans for reporting test information to parents and the public and potential uses of the tests This report covers phase 1 of the evaluation November 1997 July 1998 and focuses on three principal issues test specifications and frameworks preliminary evidence of the quality of test items and plans for the pilot and field test studies for inclusion and accommodation and for reporting VNT results **Resources in Education** ,1994 **Education Connection** Wisconsin. Department of Natural Resources,2007 *Watershed Patch Project* ,2004 The EPA developed this Watershed Patch program to encourage young people to learn about their local watershed and to motivate them to get involved in local watershed protection efforts **Agriculture-environmental and Consumer Protection Appropriations for 1974** United States.
