Mellan Neva och Nordsjön Per Eliasson, Lars Ericson Wolke, 2021-03-12 I drygt tvrtionden har svensk säkerhetspolitik och Sveriges militära försvar inriktats på att delta i internationella insatser exempelvis i Afghanistan och i Jugoslavien. Men sedan kriget i Georgien 2008 och oroligheterna på Krim 2014 har styrningen ändrats idag är försvaret av det egna territoriet högsta prioritet. Men hur kan Sverige värnas militärt vilka möjligheter och begränsningar avgör om skolden ska fungera. I en tematisk genomgång belyser en grupp experter förutsättningarna för väpnad strid i stersjöområdet. Inledningen ger en överblick och ett historiskt perspektiv på tidigare aktiviteter kring stersjön. Därefter skildras hur regionens särskilda förutsättningar påverkar valet av strategi, operativt tänkande och taktik för mark- och luftstridskrafter och även villkoren för logistiska funktioner. De medverkande är knutna till Försvarshögskolan som lärare och forskare eller tidigare anställda i Försvarsmakten. Medverkande: Per Eliasson, Lars Ericson, Wolke, Mats Helgesson, Ulf Högström, Christian Jeppsson, Anders Larsson, Ove Pappila, Tomas Ries, Stefan Ring, Anders Silwer, Per Skoglund, Göran Walldén.

Splendid Vision, Unswerving Purpose Aeronautical Systems Center (U.S.). History Office, 2002. This volume explores the nature of civil war in the modern world and in historical perspective. Civil wars represent the principal form of armed conflict since the end of the Second World War and certainly in the contemporary era. The nature and impact of civil wars suggests that these conflicts reflect and are also a driving force for major societal change. In this sense, *Understanding Civil War: Continuity and Change in Intrastate Conflict* argues that the nature of civil war is not fundamentally changing in nature. The book includes a thorough consideration of patterns and types of intrastate conflict and debates relating to the causes, impact and changing nature of war. A key focus is on the political and social driving forces of such conflict and its societal meanings, significance and consequences. The author also explores methodological and epistemological challenges related to studying and understanding intrastate war. A range of questions and debates are addressed: What is the current knowledge regarding the causes and nature of armed intrastate conflict? Is it possible to produce general cross-national theories on civil war which have broad explanatory relevance? Is the concept of civil wars empirically meaningful in an era of globalization and transnational war? Has intrastate conflict fundamentally changed in nature? Are there historical patterns in different types of intrastate conflict? What are the most interesting methodological trends and debates in the study of armed intrastate conflict? How are narratives about the causes and nature of civil wars constructed around ideas such as ethnic conflict, separatist conflict and resource conflict? This book will be of much interest to students of civil wars, intrastate conflict, security studies and IR in general.
