Defense Logistics Studies Information Exchange,1993 **THE EDUCATION AND DECONSTRUCTION OF MR. BLOOMBERG** Sally A. Friedman,2010-07-12 This is an expos detailing New York City Mayor Michael Bloomberg s education and construction policies between 2002 and 2009 inclusive It covers all major education issues schools chancellor school budget grading of the schools reducing class sizes small charter and culturally themed schools standardized testing school safety overcrowding and mayoral control and all major real estate development issues rezoning ULURP self certification various fatal construction accidents and disasters affordable housing lack of construction law enforcement and the large projects that characterized the administration This book features a list of abbreviations and a comprehensive index in the back A page of the Introduction p 11 is crucial for understanding references made throughout the book Therefore it is reproduced below Making himself available to parents The mayor performed the important tasks of negotiating with the unions securing funding from the higher powers and making public relations appearances when there was good news to report I have observed that there were three recurring themes in Mr Bloomberg s modus operandi in both Education and Real Estate Development Theme 1 He was overly optimistic As his various education initiatives and construction projects progressed he routinely threw around and changed numbers on standardized test scores graduation rates school openings school crime rates construction costs creation of jobs and affordable housing units among others and sometimes even distorted facts outright Theme 2 Time after time Mr Bloomberg asked for input from the community or purported to on new school openings and on construction of schools and other projects but usually ended up hiring his

cronies and ignored the community's wishes Theme 3 He took advantage of legal loopholes or skirted around the law to forge ahead with his agenda His agenda was to acquire power Why else did he take control of the schools and overturn term limits It was not for the money In November 2009 Mr Bloomberg won his third term election bid by a narrow margin mostly because he was still viewed as a stronger candidate than the opposing one His power and popularity were waning however rocked by various investigations in recent years including a slush fund scandal and corruption and sloppiness in construction that led to fatal accidents that resulted in the termination of decades long unethical practices Further he was accused of being involved in various conflicts of interest and of being hypocritical on environmental and health issues Two farmyard clichés and one generic cliché also aptly describe many occurrences during the Bloomberg administration between 2002 and 2009 Cliché 1 Just another case of the fox guarding the henhouse Cliché 2 Closing the barn door after the horses have already fled Cliché 3 Do as I say not as I do The above themes and clichés are so common in my text that I refer to their generic names i.e. I will use the blog style for example File under Theme 1 or File under Cliché 2 when providing evidence of same Enjoy

Unfolding Health Assessment Case Studies for the Student Nurse,

Second Edition Kristi Maynard, Andrea Adimando, 2024-04-10 This is an extraordinary and contemporary learning resource for all nursing students and faculty Jeffery Ramirez PhD PMHNP BC CNE FNAP FAANP FAAN Director of Graduate Nursing Programs and Professor Gonzaga University School of Health Sciences The ease of reading the 16 chapters cannot be overemphasized This notable book will amplify essential knowing for the newest to enter our profession Quite simply this little gem delivers Linda Honan PhD CNS BC FAAN ANEF Professor Emerita Yale University School of Nursing Critical thinking can be the difference between keeping patients safe and putting them in harm's way But as a student nurse you may

find that mastering these skills is challenging and you may lack confidence in assessing a patient's health. Case studies are a common beneficial learning approach. Traditionally they present information upfront with the patient's status predetermined. But that isn't realistic as a patient's health can often take an unexpected turn. Unfolding case studies provide new information over time, teaching you to think critically and apply what you've learned in nursing school to real-life situations you'll face on the job. Authors Kristi Maynard and Andrea Adimando created *Unfolding Health Assessment Case Studies for the Student Nurse* for pre-licensure students who need to review what they've learned earlier and practicing nurses who can apply these concepts to more complex scenarios. This book will enhance students' knowledge and skills in basic health assessment, increase readers' comfort level in analyzing patient scenarios, provide opportunities to practice and apply what students learned in health assessment courses, and develop confidence in answering NCLEX questions.
