The Realities of Reality - Part I: It All Starts from Within Fritz Dufour, MBA, DESS, 2018-03-16 This book is the first of a series that considers the many aspects of reality I call it It all starts from within because reality starts with each of us individually and independently It starts from our inner self before evolving into what I would call the collective reality meaning a generally agreed upon state in which groups of people entire nations or the whole world believe That reality includes beliefs cultures ideologies etc As we change and adapt to our environment our reality changes as well New realities emerge Chapter one is about perception and our senses It demonstrates how perception is impossible without our senses Whatever angle of reality that s being analyzed one or more of our senses plays a momentous role in its understanding Chapter two considers the role of the brain in the making of reality It delves into how the brain can make the mind behave a certain way under certain circumstances Chapter three looks at the mind which I call the ultimate maker of reality This chapter describes the mind as that intangible component of the brain and where reality or all realities stem from after of course being picked up by the senses and the brain Chapter four attempts to define reality itself after it s perceived by our senses analyzed by our brain and processed by our mind I consider five questions in my attempt to answer the question what is reality They are what are things and why do they look different from one another What is life and its origins What is death What is superstition What is space and are we alone in the universe

Marriage of a Monk Venkata Mohan, 2017-03-04 An IIT graduate who always dreamt of becoming a monk married an IAS officer Both thought they understood each other as well as

their priorities in life so well that neither her commitment to work nor his pursuit of Truth would be affected by the marriage. What they did not know was that life does not oblige mortal's plans. *Jeff's View* Gottfried Schatz, 2005-11-07. Jeff's Views provide witty insightful and thought provoking looks into the life of a modern scientist. From starting off to letting go, Gottfried Jeff Schatz leads us through the trials and triumphs of scientific life. With his tongue firmly in his cheek and his humour always intact, the Austrian essayist leads us through the confusing and seemingly insurmountable hill that is the career path of European scientists. In addition to giving useful insights into how to get funding, give seminars and still find time to make that leading edge scientific discovery, Jeff explores the philosophical dimensions of recent biological breakthroughs such as the sequencing of the human genome, the evolution of sensory receptors and cellular suicide. Gottfried Schatz is one of the world's leading scientists in the field of bioenergetics and mitochondria biology. Born in a small Austrian village, he started his scientific career at the University of Graz and ended it as President of the Swiss Science and Technology Council. With stints as a violinist in Austrian opera houses, professorships in the USA and Switzerland and numerous prestigious awards along the way, Jeff is a true European whose unique and often controversial viewpoints are appreciated by scientists and politicians alike. These essays look at science from a very personal angle, often critical, sometimes sad but always with excitement, wonder and admiration. It is hoped that they will make you look at science with a slightly different view. Witty, insightful and thought provoking looks into the life of a modern scientist. Provides useful insights on how to get funding, give seminars and still find time to make that scientific discovery. Explores recent breakthroughs in science: genome sequencing, sensory receptor evolution and cellular suicide. **The Black Trilogy** Elise Noble, 2017-12-25. Secrets and lies, murder and mayhem and a little bit of love. The Black Trilogy delivers all this and more in three full-length novels together in one volume. After the owner of a security company is murdered, his sharp-edged wife goes on the run. With her husband's killer still on the loose and her life in England a disaster, Diamond returns to the only thing she knows: work. As the star of Blackwood Security, she takes on enemies from the States to Syria. She finds the toughest battle is the one going on in her own head. Her training has equipped her to handle the most dangerous situations, but controlling her own emotions isn't so easy. All she wants is justice, but can she repair her broken heart as well? Do you want sexy heroes and kick-ass heroines? Then grab The Black Trilogy and start reading today. Warning: Diamond isn't polite.
