Patton, 2018-01-24 Using an approach that is geared toward developing solid logical habits in dissection and identification the Laboratory Manual for Anatomy and coloring exercises offer a kinesthetic experience useful in retention of content User friendly spiral binding allows for hands free viewing in the lab setting Step by step dissection instructions with accompanying illustrations

and photos cover anatomical models and fresh or preserved specimens and provide needed guidance during dissection labs. The dissection of tissues, organs, and entire organisms clarifies anatomical and functional relationships. 250 illustrations, including common histology slides and depictions of proper procedures, accentuate the lab manual's usefulness by providing clear visuals and guidance. Easy to evaluate tear-out Lab Reports contain checklists, drawing exercises, and questions that help you demonstrate your understanding of the labs you have participated in. They also allow instructors to efficiently check student progress or assign grades. Learning objectives presented at the beginning of each exercise offer a straightforward framework for learning. Content and concept review questions throughout the manual provide tools for you to reinforce and apply knowledge of anatomy and function. Complete lists of materials for each exercise give you and your instructor a thorough checklist for planning and setting up laboratory activities, allowing for easy and efficient preparation. Modern anatomical imaging techniques such as computed tomography (CT), magnetic resonance imaging (MRI), and ultrasonography are introduced where appropriate to give future health professionals a taste for and awareness of how new technologies are changing and shaping health care. Boxed hints throughout provide you with special tips on handling specimens, using equipment, and managing lab activities. Evolve site includes activities and features for students as well as resources for instructors.

Human Anatomy & Physiology Elaine Nicpon Marieb, Katja Hoehn, 2010. With the Eighth Edition of the top-selling *Human Anatomy & Physiology* with MyA&P text, trusted authors Elaine N. Marieb and Katja Hoehn have produced the most accessible, comprehensive, up-to-date, and visually stunning anatomy/physiology textbook on the market. Marieb draws on her career as an A&P professor and her experience as a part-time nursing student, while Hoehn relies on her medical education and classroom experience to explain concepts and processes in a meaningful and memorable way. The most significant revision to date, the Eighth Edition makes it easier for you to learn key concepts in A&P. The new edition features a whole new art program that is not only more visually dynamic and vibrant than in previous editions but is also much more pedagogically effective for today's students, including new Focus figures which guide you through the toughest concepts in A&P. The text has been edited to make it easier than ever to study from and navigate, with integrated objectives, new concept check questions, and a new design program.
