your big picture how a transaction affects your ecosystem of money and what the costs over the long run are all things that need to be considered and cannot be understood without a foundational understanding of money that is what this book serves to do give you the fundamentals so that you can think about your money in a framed way This is not enough though money is a lifelong journey of learning The second reason this book was written is because we see people dig themselves into a hole too often and the solution often takes years to get out of We will understand later in the course the specifics of this but generally because people turn to banks to give them money to purchase things we see people move from working for themselves and their families to working for the bank paying the bank month over month fees for borrowing money and eventually getting into a corner where lifestyle income and expenses do not align This book hopes to frame this scenario too often and move you away from these habits to find a better money picture for yourself and your family You have taken the first step now let us get through this course

Beginners Guide to Financial IQ & Money Management

Randy Silverman, 2019-10-08 Managing your money day in and day out is a challenge but it's not nearly as difficult as it seems because it's a human issue There's so much history built into this whole thing with numbers how they manage their lives The goal isn't controlling This is where you have to trust yourself you can succeed in managing your own budget The bottom line is you don't arrive at making the right decisions without the right investigation and knowing where you're coming from financially and this can only be done through proper money management Money management isn't kind of important it's a very thing With the proper guidance putting together a budget and learning how to manage your money day to day doesn't have to be painful most limit it to be The hardest part is getting yourself to do it The biggest accomplishment you'll gain from it is being able to know where you stand financially so you can't kick back and rely on your finances Ultimately you want to be able to build a solid financial life for you and your family without ever being in a compromised situation
