Department of the Army,1951 *Standard Nomenclature List* United States Armed Forces Institute,1953 *Resources in Education* ,1990-10 Teacher Credentials and Student Achievement in High School Charles T. Clotfelter,Helen F. Ladd,Jacob L. Vigdor,2007 We use data on statewide end of course tests in North Carolina to examine the relationship between teacher credentials and student achievement at the high school level The availability of test scores in multiple subjects for each student permits us to estimate a model with student fixed effects which helps minimize any bias associated with the non random distribution of teachers and students among classrooms within schools We find compelling evidence that teacher credentials affect student achievement in systematic ways and that the magnitudes are large enough to be policy relevant As a result the uneven distribution of teacher credentials by race and socio economic status of high school students a pattern we also document contributes to achievement gaps in high school
