John Butcher,2004-11-25 This book aims to enhance the competence of trainee teachers in secondary schools and FE
colleges as they confront 16 19 teaching for the first time **Get Set for Computer Science** Alistair Edwards,2006-02-17

This book is aimed at students who are thinking of studying Computer Science or a related topic at university Part One is a
brief introduction to the topics that make up Computer Science some of which you would expect to find as course modules in
a Computer Science programme These descriptions should help you to tell the difference between Computer Science as
taught in different departments and so help you to choose a course that best suits you Part Two builds on what you have
learned about the nature of Computer Science by giving you guidance in choosing universities and making your applications
to them Then Part Three gives you some advice on what to do once you get to university how to get the most out of studying
your Computer Science degree The principal objective of the book is to produce happy students students who know what
they are letting themselves in for when they start a Computer Science course and hence find themselves very well suited for
the course they choose Linguistics and Language Behavior Abstracts ,1994 Canadian Periodical Index ,1965
