Decolonisation of Materialities or Materialisation of (Re-)Colonisation Nhemachena, Artwell, Kangira, Jairo, 2017-11-28 Contemporary scholarly discourses about decolonising materialities are taking two noticeable trajectories the first trajectory privileges establishing connections relationships and associations between human beings and nature The second trajectory privileges restoration restitution reparations for colonial dispossessions lootings and disinheritance While the first trajectory presupposes that colonialism was merely about separation alienation and disconnections between human beings and nature the second trajectory stresses the colonialists dispossession disinheritance and privations of Africans Drawing on contemporary discourses about materialities in relation to semiotics non representationalism rhetoric ecocriticism territorialisation deterritorialisation and reterritorialisation translation animism science and technology studies this book teases out the intellectually rutted terrain of African materialities It argues that in a world of increasing impoverishment the significance of materialities cannot be overemphasised more so for the continent of Africa where impoverishment materialises in the midst of resource opulence The book is a pacesetter in no holds barred interrogation of African materialities

North American and European Perspectives on Sustainability in Higher Education Walter Leal Filho, Julie Newman, Amanda Lange Salvia, Laís Viera Trevisan, Laura Corazza, 2025-04-02 The scientific cultural and diplomatic relations between Europe and its partners in North America are very strong From a scientific point of view this long standing cooperation has taken place across a wide range of areas They include the field of sustainability where North America and Europe are working hand in hand seeking solutions to the many regional and global problems currently faced Against this backdrop and in order to facilitate a broad discussion on the contribution of higher education institutions from both sides of the Atlantic towards a more sustainable future this book is being produced The book gathers inputs from universities and research organizations on the one hand but also from companies and enterprises on the other from Europe and North America working on matters related to sustainable

development in a higher education context It also provides a platform for the dissemination of information on the latest initiatives paving the way for technology transfer and networking Furthermore the book intends to provide a fertile basis upon which European and North American organizations may cooperate more closely in this key area Last but not least a further aim of the book is to present methodological approaches and experiences deriving from case studies and projects which aim to show how sustainability in North America and in Europe may be enhanced in practice *Accessions List of the Library of Congress Office, Nairobi, Kenya* Library of Congress.
